

## Transparency in Coverage - Machine Readable File

The Transparency in Coverage Rule requires certain health insurers and group health plans to disclose publicly information regarding in-network provider rates and out-of-network allowed amounts in Machine Readable Files (MRFs) beginning on July 1, 2022. The MRFs are designed to allow researchers, regulators, and application developers to more easily access and analyze data. Pursuant to the Transparency in Coverage Rule, the MRFs for the Watsco, Inc. Medical Plan with BCBS are linked below:
