SCHEDULE 14C
(Rule 14c-101)

SCHEDULE 14C INFORMATION

**Information Statement Pursuant to Section 14(c) of the
Securities Exchange Act of 1934**

Check the appropriate box:

- Preliminary Information Statement
- Confidential, for Use of the Commission Only (as permitted by Rule 14c-5(d)(2))
- Definitive Information Statement

Watsco, Inc.
(Name of Registrant as Specified In Its Charter)

Payment of Filing Fee (Check the appropriate box):

- No fee required.
- Fee computed on table below per Exchange Act Rules 14c-5(g)(1) and 0-11.

(1) Title of each class of securities to which transaction applies:

(2) Aggregate number of securities to which transaction applies:

(3) Per unit price or other underlying value of transaction computed pursuant to Exchange Act Rule 0-11 (set forth the amount on which the filing fee is calculated and state how it was determined):

(4) Proposed maximum aggregate value of transaction:

(5) Total fee paid:

Fee paid previously with preliminary materials:

Check box if any part of the fee is offset as provided by Exchange Act Rule 0-11(a)(2) and identify the filing for which the offsetting fee was paid previously. Identify the previous filing by registration statement number, or the Form or Schedule and the date of its filing.

(1) Amount Previously Paid:

(2) Form, Schedule or Registration Statement No.:

(3) Filing Party:

(4) Date Filed:

Watsco, Inc.

Miami, Florida 33133

**INFORMATION STATEMENT REGARDING ACTION TAKEN BY WRITTEN CONSENT
OF THE MAJORITY SHAREHOLDERS IN LIEU OF A MEETING**

Dear Shareholder:

We are writing to advise you of certain action taken by the written consent, which we refer to as the Written Consent, of the directors and executive officers of Watsco, Inc., a Florida corporation (the "Company," "Watsco," "we," "us" or "our"), on March 13, 2012. Pursuant to the Written Consent our directors and executive officers, who we refer to collectively as the Majority Shareholders, approved our issuance of between 750,000 and 1,250,000 shares of our Common stock, to UTC Canada Corporation, a subsidiary of United Technologies Corporation, the parent company of Carrier Corporation, which is one of our substantial shareholders. The foregoing issuance of Common stock, which we refer to as the Share Issuance, was approved by our Board of Directors; and our Majority Shareholders approved the Share Issuance solely to satisfy Rule 312.03 of the New York Stock Exchange, or NYSE, on which our Common stock is listed. Approval of the Share Issuance was not otherwise required by our Amended and Restated Articles of Incorporation, Bylaws, the laws of the State of Florida, or the rules or regulations promulgated by the U.S. Securities and Exchange Commission, referred to as the SEC.

Additional details of the Share Issuance, our relationship with Carrier Corporation and other important information, including our audited financial statements for the years ended December 31, 2011, 2010 and 2009, are set forth in, or annexed to, the accompanying Information Statement. The Share Issuance will become effective no sooner than twenty (20) calendar days following the mailing of this Information Statement.

The Written Consent was taken pursuant to Section 607.0704 of the Florida Business Corporation Act, referred to as the FBCA, and our Bylaws, each of which permits any action that may be taken at a meeting of the shareholders to be taken by the written consent of the holders of the number of shares of voting stock required to approve the action at a meeting. On such basis, in order to eliminate the costs and management time involved in holding a special meeting of shareholders, our Majority Shareholders approved the Share Issuance in accordance with the FBCA and our Bylaws.

Please note that no action is required by you.

This Information Statement is being furnished to all of our shareholders in accordance with Section 14(c) of the Securities Exchange Act of 1934, as amended, referred to as the Exchange Act, and the rules promulgated by the SEC thereunder, solely for the purpose of informing our shareholders of the action taken by the Written Consent before it becomes effective. In accordance with Rule 14c-2 under the Exchange Act, the action taken by the Written Consent will become effective no sooner than twenty (20) calendar days after the date on which this Information Statement is sent or given to our shareholders. You are urged to read the attached Information Statement in its entirety.

By order of the Board of Directors,

BARRY S. LOGAN
Senior Vice President and Secretary

March 26, 2012

THE ACCOMPANYING INFORMATION STATEMENT IS BEING MAILED TO SHAREHOLDERS ON OR ABOUT MARCH 26, 2012. WE ARE NOT ASKING YOU FOR A PROXY AND YOU ARE REQUESTED NOT TO SEND US A PROXY.

INFORMATION STATEMENT

WATSCO, INC.
2665 South Bayshore Drive, Suite 901
Miami, Florida 33133
(305) 714-4100

**NO VOTE OR OTHER ACTION OF THE COMPANY'S SHAREHOLDERS IS REQUIRED
IN CONNECTION WITH THIS INFORMATION STATEMENT**

GENERAL INFORMATION

In this Information Statement, we refer to Watsco, Inc. as the Company, Watsco, we, us, and our.

This Information Statement is being mailed on or about March 26, 2012 to our shareholders of record as of the close of business on March 13, 2012. This Information Statement is furnished in connection with an action by the written consent of our directors and executive officers taken on March 13, 2012, which we refer to as the Written Consent. The action taken by the Written Consent will not become effective until at least twenty (20) calendar days after this Information Statement is first sent or given to shareholders in accordance with the requirements of Rule 14c-2(b) under the Securities Exchange Act of 1934, referred to as the Exchange Act.

Pursuant to the Written Consent, our directors and executive officers, who together hold a number of outstanding shares of our capital stock comprising approximately 58% of the voting power of all of our outstanding shares of capital stock, approved our issuance of between 750,000 and 1,250,000 shares of our Common stock to UTC Canada Corporation, an affiliate of Carrier Corporation, which we refer to as Carrier and which is one of our substantial shareholders. In this Information Statement, we refer to our directors and executive officers collectively as the Majority Shareholders, and we refer to the foregoing issuance of shares as the Share Issuance.

The Share Issuance was approved by our Board of Directors, referred to as our Board, on March 5, 2012, and the Majority Shareholders approved the Share Issuance solely to satisfy Rule 312.03 of the New York Stock Exchange, or NYSE, on which our Common stock is listed. Approval of the Share Issuance was not otherwise required by our Amended and Restated Articles of Incorporation, referred to as our Articles of Incorporation, our Bylaws, the laws of the State of Florida, or the rules or regulations promulgated by the U.S. Securities and Exchange Commission, referred to as the SEC.

WE ARE NOT ASKING YOU FOR A PROXY AND YOU ARE REQUESTED NOT TO SEND US A PROXY

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This Information Statement contains statements that are not historical in nature and that are intended to be, and are hereby identified as, “forward-looking statements” as defined in the Private Securities Litigation Reform Act of 1995, including statements regarding, among other items, (i) economic conditions, (ii) business and acquisition strategies, (iii) potential acquisitions and/or joint ventures, (iv) financing plans and (v) industry, demographic and other trends affecting our financial condition or results of operations. These forward-looking statements are based largely on management’s current expectations and are subject to a number of risks, uncertainties and changes in circumstances, certain of which are beyond their control.

Actual results could differ materially from these forward-looking statements as a result of several factors, including, but not limited to:

- general economic conditions;
- competitive factors within the HVAC/R industry;
- effects of supplier concentration;
- fluctuations in certain commodity costs;
- consumer spending;
- consumer debt levels;
- new housing starts and completions;
- capital spending in the commercial construction market;
- access to liquidity needed for operations;
- seasonal nature of product sales;
- weather conditions;
- insurance coverage risks;
- federal, state and local regulations impacting our industry and products;
- prevailing interest rates;
- refinancing of revolving credit agreements with satisfactory terms;
- foreign currency exchange rate fluctuations; and
- the continued viability of our business strategy.

In light of these uncertainties, there can be no assurance that the forward-looking information contained herein will be realized or, even if substantially realized, that the information will have the expected consequences or effects on us or our business or operations. A discussion of certain of these risks and uncertainties that could cause actual results to differ materially from those contained in such forward-looking statements is set forth in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2011 and included in our 2011 Annual Report in the section captioned “Management’s Discussion and Analysis of Financial Condition and Results of Operations”. Forward-looking statements speak only as of the date the statements were made. We assume no obligation to update forward-looking information or the discussion of such risks and uncertainties to reflect actual results, changes in assumptions or changes in other factors affecting forward-looking information, except to the extent required by applicable law.

BACKGROUND AND DESCRIPTION OF THE SHARE ISSUANCE

Watsco Overview

Watsco, Inc. was incorporated in 1956 and is the largest distributor of air conditioning, heating and refrigeration equipment and related parts and supplies (“HVAC/R”) in the HVAC/R distribution industry. At December 31, 2011 we operated from 542 locations in 38 states, Mexico and Puerto Rico with additional market coverage on an export basis to Latin America and the Caribbean, through which we serve more than 50,000 contractors and dealers that service the replacement and new construction markets. Our revenues in HVAC/R distribution have increased from \$64.1 million in 1989 to \$2.98 billion in 2011 via a strategy of acquiring companies with established market positions and subsequently building revenues and profit through a combination of adding locations, products, services and other initiatives.

Our principal executive office is located at 2665 South Bayshore Drive, Suite 901, Miami, Florida 33133, and our telephone number is (305) 714-4100. Our website address on the Internet is www.watsco.com and e-mails may be sent to info@watsco.com. The reference to our website address does not constitute incorporation by reference of the information contained on, or linked to, the website and none of such information is part of this Information Statement.

Background of Our Relationship with Carrier

Joint Ventures

In 2009, we formed a joint venture with Carrier, which we refer to as Carrier Enterprise I, in which Carrier contributed 95 of its company-owned locations in 13 U.S. Sun Belt states and Puerto Rico and its export division in Miami, Florida, and we contributed 15 locations that distributed Carrier products. We have a 60% controlling interest in Carrier Enterprise I, Carrier has a 40% noncontrolling interest and we have options to purchase from Carrier up to an additional 20% interest in Carrier Enterprise I (10% in July 2012 and 10% in July 2014). In connection with the formation of Carrier Enterprise I, we issued to Carrier 2,985,685 shares of Common stock and 94,784 shares of Class B common stock, having a fair value at the time of issuance of \$151.1 million.

This represented a transformational event in our history. The joint venture substantially increased our leading market position in the United States and expanded our product lines and brands. We were also able to expand our presence in the U.S. Sun Belt, where our products are of critical importance. In particular, Carrier Enterprise I added product depth with premium level residential products, commercial products and the latest energy-efficient technology. Likewise, Carrier Enterprise I locations have the opportunity to sell additional parts, supplies and other complementary accessories through its existing operating structure, leveraging existing customer relationships and costs.

In 2011, we formed a second joint venture with Carrier and completed two additional transactions. In April 2011, Carrier contributed 28 of its company-owned locations in eight Northeast U.S. states, and we contributed 14 locations in the Northeast U.S. In August 2011, we purchased Carrier’s distribution operations in Mexico, which included seven locations. We refer to the foregoing Northeast locations and the Mexico operations together as Carrier Enterprise II. We have a 60% controlling interest in Carrier Enterprise II, and Carrier has a 40% noncontrolling interest. Neither we nor Carrier have any options to purchase additional ownership interests in Carrier Enterprise II.

Combined, the joint ventures with Carrier represented 55% of our consolidated revenues in 2011. Please see Note 8 to our consolidated financial statements, attached as [Annex A](#) to this Information Statement, for a discussion of acquisitions.

The business and affairs of the joint ventures are controlled, directed and managed exclusively by Carrier Enterprise I’s and Carrier Enterprise II’s respective boards of directors, referred to as the Carrier Enterprise Boards, pursuant to their respective operating agreements. The Carrier Enterprise Boards have full, complete and exclusive authority, power and discretion to manage and control the business, property and affairs of the joint ventures and to make all decisions regarding those matters and to perform any and all other acts or activities customary or incident to the management of the joint ventures, including approving distributions. The Carrier Enterprise Boards are composed of five directors, of whom three directors represent our respective 60% controlling interests, and two directors represent Carrier’s respective 40% noncontrolling interests. Matters presented to the Carrier Enterprise Boards for vote are considered, approved or consented to upon the receipt of the affirmative vote of at least a majority of all directors entitled to vote with the exception of certain governance matters, which require joint approval.

Shareholder Agreement

In connection with the formation of Carrier Enterprise I, we and Carrier entered into a shareholder agreement, referred to as the Shareholder Agreement, which we amended and restated January 24, 2012. Among other things, the Shareholder Agreement provides that, for as long as Carrier’s ownership of our Common stock and Class B common stock exceeds five percent (5%) of the total number of outstanding shares of Common stock and Class B common stock:

- at any meeting of our shareholders (or any adjournment or postponement thereof), however called, or in connection with any action by written consent or other action of our shareholders, Carrier must vote (or cause to be voted) all of the shares of our common stock beneficially owned by it and the “Shareholder Group Members” in the same proportion as votes cast for, against or abstain by all other holders of our common stock; and

- at any meeting of our shareholders (or any adjournment or postponement thereof), however called, or in connection with any action by written consent or other action of our shareholders, pursuant to which holders of any class of our common stock are entitled to vote as a separate class, Carrier must vote (or cause to be voted) all of the shares of such class of our common stock beneficially owned by it and by “Shareholder Group Members” in the same proportion of votes cast for, against or abstain by all other holders of such class of our common stock.

“Shareholder Group Members” include Carrier, its parent corporation, United Technologies Corporation, referred to as UTC, and all of UTC’s subsidiaries, including Carrier and UTC Canada Corporation, referred to as UTC Canada.

The Shareholder Agreement also provides, among other things, that Shareholder Group Members may not, directly or indirectly, acquire, offer to acquire, or agree to acquire, by purchase or otherwise, unless specifically requested by us in writing, any shares, or the power to vote and/or direct the vote of shares, of our Common stock and Class B common stock that would result in the Shareholder Group Members owning in aggregate more than 19.9% of the total number of shares, or voting power, of our Common stock and Class B common stock then outstanding.

Background of the Share Issuance

The Asset Purchase Agreement and Formation of Carrier Enterprise III

On March 13, 2012, we entered into an asset purchase agreement, referred to as the Purchase Agreement, with UTC Canada, an affiliate of Carrier, Watsco Canada, Inc., and Carrier Enterprise Canada, L.P., which we refer to as Carrier Enterprise III. We entered into the Purchase Agreement in connection with the formation of Carrier Enterprise III, which is our third joint venture with Carrier. Upon closing of the transactions contemplated by the Purchase Agreement, Carrier Enterprise III will distribute Carrier, Bryant and Payne branded residential, light-commercial and commercial applied air conditioning and heating equipment and related parts and supplies from 35 locations, serving the provinces and territories of Canada. Pursuant to the Purchase Agreement, UTC Canada will contribute its Canadian distribution business and retain a 40% noncontrolling interest in the joint venture. We have agreed to purchase a 60% controlling interest in the joint venture for cash consideration of \$168.9 million, using cash on hand and proceeds from borrowings under our revolving credit agreement, payable on the closing date. The Purchase Agreement contemplates that, contemporaneously with the execution and delivery thereof, UTC Canada will subscribe for between 750,000 and 1,250,000 shares of our Common stock pursuant to a subscription agreement, which is discussed below.

The Subscription Agreement

In connection with the formation of Carrier Enterprise III and our entering into the Purchase Agreement, on March 13, 2012, we entered into a subscription agreement, referred to as the Subscription Agreement, pursuant to which we agreed to effect the Share Issuance and issue and sell to UTC Canada, and UTC Canada has agreed to purchase from us, between 750,000 and 1,250,000 shares of our Common stock. UTC Canada has agreed to pay a price per share of Common stock equal to the weighted average of the reported per share prices at which transactions in the Common shares are executed on the NYSE during the ten (10) consecutive trading days ending on and including the second (2nd) trading day immediately prior to the closing date of the transactions contemplated by the Purchase Agreement, as such weighted average price is reported by Bloomberg Financial Markets. We refer to this per share price as so calculated as the Volume Weighted Average Trading Price. On or prior to the third (3rd) trading day prior to the closing date, UTC Canada must deliver to us a notice, specifying the exact number of shares of Common stock it will purchase under the Subscription Agreement, which may be no fewer than 750,000 shares nor more than 1,250,000 shares.

If the Volume Weighted Average Trading Price of the Common stock is less than \$50.00, then we may deliver notice to UTC Canada, not later than the trading day prior to the closing date, requesting that UTC Canada pay at least \$50.00 per share of Common stock. If we deliver such a notice, then UTC Canada may choose to accept \$50.00 as the per share purchase price and purchase the Common stock at that price, or UTC Canada may choose not to accept that price, in which case no shares of Common stock would be sold by us and purchased by UTC Canada, the Subscription Agreement would terminate and would cease to be of any force or effect. A termination of the Subscription Agreement solely for the reason just described would not cause termination of the Purchase Agreement.

Consummation of the transactions contemplated by the Purchase Agreement and the Subscription Agreement, referred to collectively as the Transaction, are subject to certain conditions, including, among others, those relating to the accuracy of the parties’ representations and warranties, delivery of certain ancillary agreements (including an amendment to the Shareholder Agreement pursuant to which UTC Canada would become a party thereto and be bound by, among other things, the voting requirements described above) and other customary closing conditions. We expect to close the Transaction by the end of April 2012, subject to the satisfaction of such closing conditions. Any party may terminate the Purchase Agreement if closing of the transaction contemplated thereby has not occurred on or before July 2, 2012 and such date is not otherwise extended by the mutual agreement of the parties. No assurance can be given that we will be able to close the Transaction.

Based upon Carrier's ownership of our common stock as of the date of this Information Statement, following consummation of the Transaction, Carrier and UTC Canada, together, would own an aggregate of between 3,830,469 and 4,330,469 shares of our common stock, comprising between approximately 11% and 13%, respectively, of our issued and outstanding shares of our Common and Class B common stock, and approximately 6% and 7%, respectively, of the combined voting power of our issued and outstanding shares of our Common and Class B common stock (based on the number of shares outstanding on March 13, 2012).

Board of Directors Approval

On March 5, 2012, our Board approved the Transaction, including the Share Issuance, which it deemed to be in the best interests of Watsco and its shareholders.

NYSE Shareholder Approval Requirement

Our Common stock is listed on the NYSE under the symbol "WSO", and we are subject to NYSE rules. NYSE Rule 312.03, referred to as Rule 312.03, requires that a listed company obtain shareholder approval prior to the issuance to any director, officer or substantial security holder of the company of a number of shares of common stock that exceeds either one percent (1%) of the number of shares of common stock or one percent (1%) of the voting power outstanding before the issuance. As of March 13, 2012, Carrier beneficially owned an aggregate of 3,080,469 of our common stock, comprising 2,985,685 shares of our Common stock and 94,784 shares of our Class B common stock, which, in aggregate, equaled approximately 9% of our total outstanding shares of common stock. Based on such share ownership, Carrier is a "substantial security holder" for purposes of Rule 312.03, and our proposed issuance to Carrier's affiliate, UTC Canada, of between 750,000 and 1,250,000 shares, or between approximately 2% and 4%, respectively, of our issued outstanding common stock, pursuant to the Subscription Agreement necessitates that, prior to consummating the Share Issuance, we first obtain shareholder approval in accordance with Rule 312.03.

In accordance with the FBCA and our Bylaws, the Majority Shareholders, pursuant to the Written Consent, approved the Share Issuance on March 13, 2012. The Majority Shareholders approved the Share Issuance solely to satisfy Rule 312.03. Approval of the Share Issuance was not otherwise required by our Articles of Incorporation, Bylaws, the laws of the State of Florida, or the rules or regulations promulgated by the SEC.

This Information Statement does not constitute an offer to sell or the solicitation of an offer to purchase shares of our Common stock, Class B common stock or any other securities.

Use of Proceeds

The proceeds received from the Share Issuance will be used for general corporate purposes, including the repayment of indebtedness.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Company Overview

Watsco, Inc. and its subsidiaries (collectively, "Watsco," or *we, us or our*) was incorporated in 1956 and is the largest distributor of air conditioning, heating and refrigeration equipment and related parts and supplies ("HVAC/R") in the HVAC/R distribution industry. At December 31, 2011, we operated from 542 locations in 38 states, Mexico and Puerto Rico with additional market coverage on an export basis to Latin America and the Caribbean.

Revenues primarily consist of sales of air conditioning, heating and refrigeration equipment and related parts and supplies. Selling, general and administrative expenses primarily consist of selling expenses, the largest components of which are salaries, commissions and marketing expenses that are variable and correlate to changes in sales. Other significant selling, general and administrative expenses relate to the operation of warehouse facilities, including a fleet of trucks and forklifts and facility rent, which are payable mostly under non-cancelable operating leases.

Sales of residential central air conditioners, heating equipment and parts and supplies are seasonal. Furthermore, results of operations can be impacted favorably or unfavorably based on weather patterns during summer and winter selling seasons. Demand related to the residential central air conditioning replacement market is typically highest in the second and third quarters, and demand for heating equipment is usually highest in the fourth quarter. Demand related to the new construction sectors throughout most of the markets is fairly consistent during the year, except for dependence on housing completions and related weather and economic conditions.

Joint Ventures with Carrier Corporation

In 2009, we formed a joint venture with Carrier Corporation (“Carrier”), which we refer to as “Carrier Enterprise I”, in which Carrier contributed 95 of its company-owned locations in 13 U.S. Sun Belt states and Puerto Rico and its export division in Miami, Florida and we contributed 15 locations that distributed Carrier products. We have a 60% controlling interest in Carrier Enterprise I, Carrier has a 40% noncontrolling interest and we have options to purchase from Carrier up to an additional 20% interest in Carrier Enterprise I (10% in July 2012 and 10% in July 2014).

In 2011, we formed a second joint venture with Carrier and completed two additional transactions. In April 2011, Carrier contributed 28 of its company-owned locations in eight Northeast U.S. states and we contributed 14 locations in the Northeast U.S. In August 2011, we purchased Carrier’s distribution operations in Mexico, which included seven locations (we refer to the foregoing Northeast locations and the Mexico operations together as “Carrier Enterprise II”). We have a 60% controlling interest in Carrier Enterprise II and Carrier has a 40% noncontrolling interest. Neither we nor Carrier have any options to purchase additional ownership interests in Carrier Enterprise II.

Critical Accounting Policies

Management’s discussion and analysis of financial condition and results of operations is based upon the consolidated financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles. The preparation of these consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amount of revenues and expenses during the reporting period. Actual results may differ from these estimates under different assumptions or conditions. At least quarterly, management reevaluates its judgments and estimates, which are based on historical experience, current trends and various other assumptions that are believed to be reasonable under the circumstances.

Our significant accounting policies are discussed in Note 1 to the consolidated financial statements, attached as [Annex A](#) to this Information Statement. Management believes that the following accounting policies include a higher degree of judgment and/or complexity and, thus, are considered to be critical accounting policies. Management has discussed the development and selection of critical accounting policies with the Audit Committee of the Board of Directors and the Audit Committee has reviewed the disclosures relating to them.

Allowance for Doubtful Accounts

An allowance for doubtful accounts is maintained for estimated losses resulting from the inability of customers to make required payments. Accounting for doubtful accounts contains uncertainty because management must use judgment to assess the collectability of these accounts. When preparing these estimates, management considers a number of factors, including the aging of a customer’s account, past transactions with customers, creditworthiness of specific customers, historical trends and other information. Our business is seasonal and our customers’ businesses are also seasonal. Sales are lowest during the first and fourth quarters and past due accounts receivable balances as a percentage of total trade receivables generally increase during these quarters. We review our accounts receivable reserve policy periodically, reflecting current risks, trends and changes in industry conditions.

The allowance for doubtful accounts was \$12.9 million and \$6.3 million at December 31, 2011 and 2010, respectively, an increase of \$6.6 million. Accounts receivable balances greater than 90 days past due as a percent of accounts receivable at December 31, 2011 increased to 4.7% compared to 2.2% at December 31, 2010. These increases are primarily attributable to the 35 locations added by Carrier Enterprise II in 2011.

Although we believe the allowance for doubtful accounts is sufficient, a decline in economic conditions could lead to the deterioration in the financial condition of customers, resulting in an impairment of their ability to make payments and additional allowances may be required that could materially impact our consolidated results of operations. Concentrations of credit risk with respect to accounts receivable are limited due to the large number of customers comprising our customer base and their dispersion across many different geographical regions. Additionally, we mitigate credit risk through a credit insurance program.

Inventory Valuation

Inventories consist of air conditioning, heating and refrigeration equipment and related parts and supplies and are valued at the lower of cost or market using a weighted-average cost basis and the first-in, first-out method. As part of the valuation process, inventory reserves are established to state excess, slow-moving and damaged inventories at their estimated net realizable value. The valuation process for excess, slow-moving and damaged inventory contains uncertainty because management must use judgment to estimate when the inventory will be sold and the quantities and prices at which the inventory will be sold in the normal course of business. Inventory reserve policies are periodically reviewed, reflecting current risks, trends and changes in industry conditions. A reserve for estimated inventory shrinkage is also maintained and reflects the results of cycle count programs and physical inventories. When preparing these estimates, management considers historical results, inventory levels and current operating trends.

Valuation of Goodwill and Indefinite Lived Intangible Assets

The recoverability of goodwill is evaluated at least annually and when events or changes in circumstances indicate that the carrying amount may not be recoverable. We have one reporting unit that is subject to goodwill impairment testing. In performing the goodwill impairment test, we use a two-step approach. The first step compares the reporting unit's fair value to its carrying value. If the carrying value exceeds the fair value, a second step is performed to measure the amount of impairment loss, if any. The identification and measurement of goodwill impairment involves the estimation of the fair value of our reporting unit and contains uncertainty because management must use judgment in determining appropriate assumptions to be used in the measurement of fair value. On January 1, 2012, we performed our annual goodwill impairment test and determined that the estimated fair value of our reporting unit significantly exceeded its carrying value.

The recoverability of indefinite lived intangibles is also evaluated on an annual basis or more often if deemed necessary. Indefinite lived intangibles not subject to amortization are assessed for impairment by comparing the fair value of the intangible asset to its carrying amount to determine if a write-down to fair value is required. Our annual impairment tests did not result in any impairment of our indefinite lived intangibles.

The estimates of fair value of our reporting unit and indefinite lived intangibles are based on the best information available as of the date of the assessment and incorporates management's assumptions about expected future cash flows and contemplates other valuation techniques. Future cash flows can be affected by changes in the industry, a declining economic environment or market conditions. There have been no events or circumstances from the date of our assessments that would have an impact on this conclusion. The carrying amount of goodwill and intangibles at December 31, 2011 increased to \$394.8 million from \$360.3 million at December 31, 2010, which was primarily attributable to the formation of Carrier Enterprise II. Although no impairment has been recorded to date, there can be no assurances that future impairments will not occur. An adjustment to the carrying value of goodwill and intangibles could materially impact the consolidated results of operations.

Self-Insurance Reserves

Self-insurance reserves are maintained relative to company-wide casualty insurance and health benefit programs. The level of exposure from catastrophic events is limited by the purchase of stop-loss and aggregate liability reinsurance coverage. When estimating the self-insurance liabilities and related reserves, management considers a number of factors, which include historical claims experience, demographic factors, severity factors and valuations provided by independent third-party actuaries. Management reviews its assumptions with its independent third-party actuaries to evaluate whether the self-insurance reserves are adequate. If actual claims or adverse development of loss reserves occur and exceed these estimates, additional reserves may be required. The estimation process contains uncertainty since management must use judgment to estimate the ultimate cost that will be incurred to settle reported claims and unreported claims for incidents incurred but not reported as of the balance sheet date. Reserves in the amounts of \$4.6 million and \$7.3 million at December 31, 2011 and 2010, respectively, were established related to such insurance programs.

Income Taxes

Income taxes are accounted for under the asset and liability method. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial reporting basis and the tax basis of assets and liabilities at enacted tax rates expected to be in effect when such amounts are recovered or settled. The use of estimates by management is required to determine income tax expense, deferred tax assets and any related valuation allowance and deferred tax liabilities. A valuation allowance of \$0.4 million and \$1.1 million was recorded at December 31, 2011 and 2010, respectively, due to uncertainties related to the ability to utilize a portion of the deferred tax assets primarily arising from foreign net operating loss carryforwards. The valuation allowance is based on estimates of future taxable income by jurisdiction in which the deferred tax assets will be recoverable. These estimates can be affected by a number of factors, including possible tax audits or general economic conditions or competitive pressures that could affect future taxable income. Although management believes that the estimates are reasonable, the deferred tax asset and any related valuation allowance will need to be adjusted if management's estimates of future taxable income differ from actual taxable income. An adjustment to the deferred tax asset and any related valuation allowance could materially impact the consolidated results of operations.

Recent Accounting Pronouncements

Please see Note 1 to our consolidated financial statements, attached as Annex A to this Information Statement, for a discussion of recently issued accounting standards.

Results of Operations

The following table summarizes information derived from the consolidated statements of income expressed as a percentage of revenues for the years ended December 31, 2011, 2010 and 2009:

	2011	2010	2009
Revenues	100.0%	100.0%	100.0%
Cost of sales	75.5	76.3	76.0
Gross profit	24.5	23.7	24.0
Selling, general and administrative expenses	17.8	17.9	20.0
Operating income	6.7	5.8	4.0
Interest expense, net	0.2	0.1	0.1
Income before income taxes	6.5	5.7	3.9
Income taxes	1.9	1.8	1.3
Net income	4.6	3.9	2.6
Less: net income attributable to noncontrolling interest	1.6	1.1	0.4
Net income attributable to Watsco, Inc.	3.0%	2.8%	2.2%

The following narratives include the results of operations for businesses acquired during 2011, 2010 and 2009. The results of operations for these acquisitions have been included in our consolidated statements of income beginning on their respective dates of acquisition. The pro forma effect of these acquisitions, excluding the Carrier Enterprise II joint venture, was not deemed significant on either an individual or an aggregate basis in the related acquisition year. See Note 8 to our consolidated financial statements, attached as [Annex A](#) to this Information Statement, for the pro forma financial information combining our results of operations with the operations of Carrier Enterprise II.

In the following narratives, computations and disclosure information referring to “same-store basis” exclude the effects of locations acquired or locations opened or closed during the immediately preceding 12 months unless they are within close geographic proximity to existing locations. At December 31, 2011 and 2010, 63 and 18 locations, respectively, were excluded from “same-store basis” information. The table below summarizes the changes in our locations for 2010 and 2011:

	Number of Locations
December 31, 2009	505
Acquired	2
Opened	7
Closed	(9)
December 31, 2010	505
Acquired	35
Opened	15
Closed	(13)
December 31, 2011	542

2011 Compared to 2010

Revenues

Revenues for 2011 increased \$133.2 million, or 5%, to \$2,977.8 million, including \$191.7 million attributable to the 35 new Carrier Enterprise II locations acquired in 2011 and \$7.3 million from other locations acquired and opened during the immediately preceding 12 months, partially offset by \$28.1 million from closed locations. On a same-store basis, revenues decreased \$37.7 million, or 1%, as compared to 2010, reflecting a 3% decrease in sales of HVAC equipment and a 1% decrease in sales of other HVAC products, partially offset by a 3% increase in sales of refrigeration products. The decrease in same-store revenues is primarily due to lower demand in the residential replacement market and a shift in sales mix to lower-efficiency air conditioning systems, which sell at lower unit prices, partially offset by higher demand in the commercial replacement market.

Gross Profit

Gross profit for 2011 increased \$55.1 million, or 8%, to \$728.3 million, primarily as a result of increased revenues. Gross profit margin improved 80 basis-points to 24.5% in 2011 from 23.7% in 2010. The improvement in gross profit margin was primarily due to increased selling prices and improved discounts and rebates from vendors, reflecting increased purchasing activity during 2011. On a same-store basis, gross profit margin improved 90 basis-points to 24.5% in 2011 from 23.6% in 2010.

Selling, General and Administrative Expenses

Selling, general and administrative expenses for 2011 increased \$21.6 million, or 4%, to \$529.2 million. Selling, general and administrative expenses as a percent of revenues decreased to 17.8% for 2011 from 17.9% for 2010. Selling, general and

administrative expenses in 2011 included \$1.2 million of acquisition-related costs primarily associated with the acquisition and transition of Carrier Enterprise II. On a same-store basis, selling, general and administrative expenses decreased 2% compared to 2010 and as a percentage of sales were 17.8% primarily due to decreases in selling expenses related to our decreased revenues.

Operating Income

Operating income for 2011 increased \$33.5 million, or 20%, to \$199.1 million. Operating margin improved 90 basis-points to 6.7% in 2011 from 5.8% in 2010. On a same-store basis, operating income increased \$23.2 million, or 14%, and operating margin also improved 90 basis-points to 6.7% versus 5.8% in 2010.

Interest Expense, Net

Net interest expense for 2011 increased \$1.0 million, or 28%, to \$4.5 million primarily as a result of an increase in average outstanding borrowings during 2011 as compared to 2010.

Income Taxes

Income taxes increased to \$56.9 million for 2011 as compared to \$50.4 million for 2010 and are a composite of the income taxes attributable to our wholly-owned operations and investments and 60% of income taxes attributable to the Carrier joint ventures, which are taxed as partnerships for income tax purposes. The effective income tax rate attributable to us was 38.0% in 2011 and 2010.

Net Income Attributable to Watsco, Inc.

Net income attributable to Watsco in 2011 increased \$9.7 million, or 12%, to \$90.5 million. The increase was primarily driven by higher revenues, expanded profit margins and lower levels of selling, general and administrative expenses as a percent of revenues as discussed above.

2010 Compared to 2009

Revenues

Revenues for 2010 increased \$842.8 million, or 42%, to \$2,844.6 million, including \$625.4 million attributable to the 95 new Carrier Enterprise I locations acquired July 1, 2009 and \$23.9 million from other locations acquired and opened during the last twelve months partially offset by \$15.2 million from closed locations. On a same-store basis, revenues increased \$208.7 million, or 11%, as compared to 2009 and reflect a 16% increase in sales of HVAC equipment, a 2% increase in sales of other HVAC products and a 10% increase in sales of refrigeration products. Sales of HVAC equipment benefited from growth in unit sales and an improved sales mix of higher-efficiency replacement air conditioning and heating systems, which sell at higher unit prices.

Gross Profit

Gross profit for 2010 increased \$192.4 million, or 40%, to \$673.2 million, primarily as a result of increased revenues. Gross profit margin declined 30 basis-points to 23.7% in 2010 from 24.0% in 2009, reflecting the impact of lower selling margins for Carrier Enterprise I. On a same-store basis, gross profit margin improved 20 basis-points to 24.3% versus 24.1% in 2009 primarily due to a shift in sales mix toward higher-efficiency HVAC equipment as well as improved margins for non-equipment products.

Selling, General and Administrative Expenses

Selling, general and administrative expenses for 2010 increased \$107.9 million, or 27%, to \$507.7 million reflecting the impact of Carrier Enterprise I for twelve months in 2010 as compared to six months in 2009. Selling, general and administrative expenses as a percent of revenues decreased to 17.9% for 2010 from 20.0% for 2009. Selling, general and administrative expenses in 2009 include \$4.8 million of acquisition-related costs primarily associated with the closing and transition of Carrier Enterprise I. On a same-store basis, selling, general and administrative expenses increased 2% compared to 2009, primarily due to increases in selling expenses related to our increased revenues including higher incentive-based compensation partially offset by a decrease in the provision for doubtful accounts.

Operating Income

Operating income for 2010 increased \$84.5 million, or 104%, to \$165.6 million. Operating margin improved 180 basis-points to 5.8% in 2010 from 4.0% in 2009. On a same-store basis, operating income increased \$46.8 million, or 57%, and operating margin also improved 170 basis-points to 5.8% versus 4.1% in 2009.

Interest Expense, Net

Net interest expense in 2010 increased \$0.8 million, or 28%, to \$3.5 million primarily as a result of the additional amortization of bank fees (included in interest expense, net) related to the amendment of our existing revolving credit agreement required to consummate the joint venture on July 1, 2009 and the establishment of the Carrier Enterprise I revolving credit agreement, together with a 25% increase in average outstanding borrowings during 2010 as compared to 2009.

Income Taxes

Income taxes increased to \$50.4 million for 2010 as compared to \$26.8 million for 2009 and are a composite of the income taxes attributable to our wholly-owned operations and investments and 60% of income taxes attributable to Carrier Enterprise I, which is taxed as a partnership for income tax purposes. The effective income tax rate attributable to us increased to 38.0% in 2010 from 37.8% in 2009. The increase is primarily due to certain non-recurring tax benefits and credits realized in 2009 and a higher effective state tax rate associated with Carrier Enterprise I in 2010.

Net Income Attributable to Watsco, Inc.

Net income attributable to Watsco increased \$37.5 million, or 86%, to \$80.8 million. The increase was primarily driven by higher revenues and reduced selling, general and administrative expenses as a percent of revenues as discussed above.

Liquidity and Capital Resources

We assess our liquidity in terms of our ability to generate cash to execute our business strategy and fund operating and investing activities, taking into consideration the seasonal demand of HVAC/R products, which peaks in the months of May through August. Significant factors that could affect our liquidity include the following:

- cash flows generated from operating activities;
- the adequacy of available bank lines of credit;
- the ability to attract long-term capital with satisfactory terms;
- acquisitions;
- dividend payments;
- capital expenditures; and
- the timing and extent of common stock repurchases.

Sources and Uses of Cash

We rely on cash flows from operations and additional borrowing capacity (subject to certain restrictions) under our revolving credit agreements to fund seasonal working capital needs, including our anticipated dividend payments, capital expenditures and funds necessary for business acquisitions, and to support the development of our long-term operating strategies.

We believe that our operating cash flows, cash on hand and funds available for borrowing under our current lines of credit will be sufficient to satisfy our liquidity needs in the foreseeable future, including exercising our option to acquire another 10% interest in Carrier Enterprise I on July 1, 2012. However, there can be no assurance that our current sources of available funds will be sufficient to meet our cash requirements. While we have the intent and current ability to refinance our revolving credit agreements on a long-term basis prior to their respective maturities in 2012, there is no assurance that we will be able to refinance with the same terms and conditions.

Any future disruption in the capital and credit markets, such as those experienced in 2008, could adversely affect our ability to draw on or refinance our lines of credit. Our access to funds under the lines of credit is dependent on the ability of the banks to meet their funding commitments. Disruptions in capital and credit markets also may affect the determination of interest rates for borrowers, particularly rates based on LIBOR, such as the rates in our lines of credit. Any future disruptions in these markets and their effect on interest rates could result in increased borrowing costs under our existing, and any future, lines of credit.

Working Capital

Working capital increased to \$605.1 million at December 31, 2011 from \$572.0 million at December 31, 2010, reflecting the 35 new locations added by Carrier Enterprise II in 2011, which in aggregate added \$50.2 million of working capital. Excluding these new locations, working capital was \$554.9 million at December 31, 2011.

Cash Flows

The following table summarizes our cash flow activity for 2011 and 2010:

	<u>2011</u>	<u>2010</u>	<u>Change</u>
Cash flows provided by operating activities	\$ 61.5	\$ 152.8	\$(91.3)
Cash flows used in investing activities	\$ (56.6)	\$ (10.1)	\$(46.5)
Cash flows used in financing activities	\$(115.6)	\$ (74.2)	\$(41.4)

A detail of the individual items contributing to the cash flow changes for the years presented is included in the consolidated statements of cash flows, attached as Annex A to this Information Statement.

Operating Activities

The decrease in net cash provided by operating activities was primarily attributable to changes in operating assets and liabilities, which were primarily composed of lower levels of accounts payable and other liabilities due to approximately \$70.0 million in incremental vendor payments from one-time changes in payment terms effective July 1, 2011 and higher levels of inventory, including the purchase of previously consigned inventory from one of our key suppliers in 2011 for approximately \$17.0 million, partially offset by accounts receivable and higher net income in 2011.

Investing Activities

The increase in net cash used in investing activities is due to the purchase of our 60% controlling interest in Carrier Enterprise II for aggregate cash consideration of \$43.5 million and an increase in capital expenditures partially offset by higher proceeds from the sale of property and equipment in 2010.

Financing Activities

In March 2011, Carrier Enterprise I used cash on hand to return to us and Carrier an \$80.0 million aggregate capital contribution made in 2009. Our share of the return of capital totaled \$48.0 million and Carrier's share totaled \$32.0 million. Cash distributions attributable to the noncontrolling interest included \$9.7 million that was payable at December 31, 2010. This payment was made in January 2011.

The increase in net cash used in financing activities was primarily attributable to the \$32.0 million return of capital to the noncontrolling interest in Carrier Enterprise I, an increase in distributions to the noncontrolling interest and an increase in dividends paid, partially offset by net borrowings under our revolving credit agreements in 2011.

Revolving Credit Agreements

We maintain a bank-syndicated, unsecured revolving credit agreement that provides for borrowings of up to \$300.0 million. Borrowings are used to fund seasonal working capital needs and for other general corporate purposes, including acquisitions, dividends, stock repurchases and issuances of letters of credit. At December 31, 2011 and 2010, \$20.0 million and \$10.0 million were outstanding under this revolving credit agreement, respectively. The credit agreement matures in August 2012 and accordingly, borrowings outstanding are classified as current liabilities in our consolidated balance sheet at December 31, 2011. We have obtained indicative term sheets at competitive rates and terms and intend to refinance this bank-syndicated, unsecured revolving credit agreement prior to its maturity however, there is no assurance that we will be able to refinance with the same terms and conditions.

The revolving credit agreement contains customary affirmative and negative covenants including financial covenants with respect to consolidated leverage and interest coverage ratios, limits on capital expenditures, dividends and share repurchases, and other restrictions. We believe we were in compliance with all covenants and financial ratios at December 31, 2011.

Carrier Enterprise I maintains a separate bank-syndicated, secured revolving credit agreement that provides for borrowings of up to \$125.0 million. Effective July 1, 2011, Carrier Enterprise I's standard payment terms with Carrier for inventory purchases changed. As a result of this change, on July 26, 2011 we amended the revolving credit agreement to increase available borrowings to \$125.0 million from \$75.0 million. All other terms and conditions of the credit facility remained the same. Borrowings under the credit facility are used for general corporate purposes, including working capital and permitted acquisitions. The credit facility is secured by substantially all tangible and intangible assets of Carrier Enterprise I. No borrowings were outstanding under this credit facility at December 31, 2011 or 2010. The credit agreement matures in July 2012. We have obtained indicative term sheets at competitive rates and terms and intend to refinance, on an unsecured basis, this bank-syndicated revolving credit agreement prior to its maturity however, there is no assurance that we will be able to refinance with the same terms and conditions.

The Carrier Enterprise I revolving credit agreement contains customary affirmative and negative covenants and representations and warranties, including compliance with a monthly borrowing base certificate with advance rates on accounts receivable and inventory, two financial covenants with respect to its leverage and interest coverage ratios, limits on capital expenditures and cash distributions, and other restrictions. We believe Carrier Enterprise I was in compliance with all covenants and financial ratios at December 31, 2011.

Contractual Obligations and Off-Balance Sheet Arrangements

As of December 31, 2011, our significant contractual obligations were as follows (in millions):

<u>Contractual Obligations</u>	<u>Payments due by Period</u>						
	<u>2012</u>	<u>2013</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>	<u>Thereafter</u>	<u>Total</u>
Operating leases (1)	<u>\$58.5</u>	<u>\$48.2</u>	<u>\$39.1</u>	<u>\$31.1</u>	<u>\$21.8</u>	<u>\$ 17.8</u>	<u>\$216.5</u>

- (1) *Represents future minimum payments associated with real property, equipment, vehicles and a corporate aircraft under non-cancelable operating leases. We are committed to pay a portion of the actual operating expenses under certain of these lease agreements and these operating expenses are not included in the table above.*

Commercial obligations outstanding at December 31, 2011 under our revolving credit agreements consist of borrowings totaling \$20.0 million and standby letters of credit totaling \$3.7 million. Borrowings under the revolving credit agreements at December 31, 2011 had revolving maturities of 30 days and letters of credit had varying terms expiring through January 2013. Standby letters of credit are primarily used as collateral under our self-insurance programs.

At December 31, 2011, we were contingently liable under performance bonds aggregating approximately \$4.7 million that are used as collateral to cover any contingencies related to our nonperformance to certain customers. We do not expect any material losses or obligation to result from the issuances of the standby letters of credit or performance bonds because the obligations under our self-insurance programs and to certain customers will be met in the ordinary course of business. Accordingly, the estimated fair value of these instruments is zero at December 31, 2011. See Note 11 to our consolidated financial statements, attached as [Annex A](#) to this Information Statement, for further information.

Acquisitions

We intend to exercise our option to acquire another 10% interest in Carrier Enterprise I on July 1, 2012 for approximately \$51.0 million. Any other potential acquisitions and/or joint ventures are continually evaluated and discussions are conducted with a number of acquisition candidates. Should suitable acquisition opportunities or working capital needs arise that would require additional financing, we believe our financial position and earnings history provide a sufficient basis for obtaining additional financing resources at competitive rates and terms or gives us the ability to raise funds through the issuance of equity securities.

Common Stock Dividends

Cash dividends of \$2.23, \$2.04 and \$1.89 per share of Common stock and Class B common stock were paid in 2011, 2010 and 2009, respectively. On January 3, 2012, our Board of Directors declared a regular quarterly cash dividend of \$0.62 per share of Common and Class B common stock that was paid on January 31, 2012 to shareholders of record as of January 13, 2012. Future dividends and/or dividend rate increases will be at the sole discretion of the Board of Directors and will depend upon such factors as cash flow generated by operations, profitability, financial condition, cash requirements, restrictions under our revolving credit agreements, future prospects and other factors deemed relevant by our Board of Directors.

Company Share Repurchase Program

In September 1999, our Board of Directors authorized the repurchase, at management's discretion, of up to 7,500,000 shares of common stock in the open market or via private transactions. Shares repurchased under the program are accounted for using the cost method and result in a reduction of shareholders' equity. No shares were repurchased in 2011, 2010 or 2009. In aggregate, 6,370,913 shares of Common and Class B common stock have been repurchased at a cost of \$114.4 million since the inception of the program. The repurchase of up to the remaining 1,129,087 shares authorized for repurchase is subject to certain restrictions included in our revolving credit agreements.

Quantitative and Qualitative Disclosures about Market Risk

Our primary market risk exposure is interest rate risk, and our objective is to manage our exposure to interest rate changes by reducing borrowing costs, which limits the impact of interest rate changes on earnings and cash flows. To achieve this objective, we use interest rate swaps to manage net exposure to interest rate changes on our borrowings. These swaps are entered into with financial institutions with investment grade credit ratings, thereby minimizing the risk of credit losses. All items described are non-trading. See Notes 1 and 11 to our consolidated financial statements, attached as [Annex A](#) to this Information Statement, for further information.

Interest rate swap agreements reduce the exposure to market risks from changing interest rates under our revolving credit agreements. Under the swap agreements, we agree to exchange, at specified intervals, the difference between fixed and variable interest amounts calculated by reference to a notional principal amount. Any differences paid or received on interest rate swap agreements are recognized as adjustments to interest expense over the life of each swap, thereby adjusting the effective interest rate on the underlying obligation. Financial instruments are not held for trading purposes. Derivatives used for hedging purposes must be designated as, and effective as, a hedge of the identified risk exposure at the inception of the contract. Accordingly, changes in the fair value of the derivative contract must be highly correlated with changes in the fair value of the underlying hedged item at inception of the hedge and over the life of the hedge contract.

We were party to an interest rate swap agreement with a notional amount of \$10.0 million that matured in October 2011 and was designated as a cash flow hedge. This swap effectively exchanged the variable rate of 30-day LIBOR to a fixed interest rate of 5.07%. During 2011, 2010 and 2009, the hedging relationship was determined to be highly effective in achieving offsetting changes in cash flows.

We were party to an interest rate swap agreement with a notional amount of \$10.0 million that matured in October 2009 and was designated as a cash flow hedge. This swap effectively exchanged the variable rate of 30-day LIBOR to a fixed interest rate of 5.04%. During 2009, the hedging relationship was determined to be highly effective in achieving offsetting changes in cash flows.

EFFECTIVENESS OF ISSUANCE OF COMMON STOCK

This Information Statement is first being mailed to our shareholders on or about March 26, 2012. The actions described in this Information Statement will become effective no sooner than twenty (20) calendar days following the mailing of this Information Statement.

DESCRIPTION OF CAPITAL STOCK

The following summarizes certain material terms and provisions of our Common stock, our Class B common stock and our Preferred stock. It does not purport to be complete, however, and is qualified in its entirety by reference to Florida law and by the actual terms and provisions contained in our Articles of Incorporation and Bylaws.

Overview - Authorized and Outstanding Shares

As of March 13, 2012, under our Articles of Incorporation, we had the authority to issue:

- 60,000,000 shares of Common stock, par value \$0.50 per share;
- 10,000,000 shares of Class B common stock, par value \$0.50 per share; and
- 10,000,000 shares of preferred stock, par value \$0.50 per share, which are issuable in series on terms determined by our Board, of which none are currently designated.

As of March 13, 2012:

- 28,362,424 shares of our Common stock, excluding 6,322,650 treasury shares, were outstanding;
- 4,709,932 shares of our Class B common stock, excluding 48,263 treasury shares, were outstanding; and
- no shares of our preferred stock were outstanding.

The following descriptions set forth certain general terms and provisions of our Common stock, Class B common stock and Preferred stock.

Rights of Our Common Stock

Preemptive Rights. The holders of our Common stock do not have preemptive rights to purchase or subscribe for any stock or other securities of ours.

Voting Rights. Each outstanding share of our Common stock is entitled to one vote per share.

Dividends. Holders of our Common stock are entitled to receive dividends or other distributions when and if declared by our Board. The right of our Board to declare dividends, however, is subject to any rights of the holders of other classes of our capital stock and the availability of sufficient funds under Florida law to pay dividends. In addition, our ability to pay dividends depends on certain restrictions in our debt agreements.

Liquidation Rights. In the event of the liquidation of Watsco, subject to the rights, if any, of the holders of other classes of our capital stock, the holders of our Common stock are entitled to receive any of our assets available for distribution to our shareholders ratably in proportion to the number of shares held by them.

Listing. We list our Common stock on the NYSE and the Professional Segment of NYSE Euronext in Paris under the symbol “WSO.”

Additionally, please see “Description of Capital Stock—Material Provisions of our Articles of Incorporation and Bylaws.”

Rights of Our Class B Common Stock

Our Class B common stock is substantially identical to our Common stock except: (i) Common stock is entitled to one vote on all matters submitted to a vote of our shareholders and each share of Class B common stock is entitled to ten votes; (ii) shareholders of Common stock are entitled to elect 25% of our Board (rounded up to the nearest whole number), and Class B shareholders are entitled to elect the balance of the Board; (iii) cash dividends may be paid on Common stock without paying a cash dividend on Class B common stock, and no cash dividend may be paid on Class B common stock unless at least an equal cash dividend is paid on Common stock; and (iv) Class B common stock is convertible at any time into Common stock on a one-for-one basis at the option of the shareholder.

We list our Class B common stock on the NYSE Amex under the symbol “WSOB.”

Additionally, please see “Description of Capital Stock—Material Provisions of our Articles of Incorporation and Bylaws.”

Rights of Our Preferred Stock

We are authorized to issue preferred stock with such designation, rights and preferences as may be determined from time to time by our Board. Accordingly, the Board is empowered, without shareholder approval, to issue preferred stock with dividend, liquidation, conversion, voting or other rights which could adversely affect the voting power or other rights of the holders of our Common and Class B common stock and, in certain instances, could adversely affect the market price of this stock. In the event of issuance, the preferred stock could be utilized, under certain circumstances, as a method of discouraging, delaying or preventing a change in control of the Company or making removal of management more difficult. Please see “Description of Capital Stock—Material Provisions of our Articles of Incorporation and Bylaws.”

Material Provisions of our Articles of Incorporation and Bylaws

Our Articles of Incorporation and Bylaws, contain provisions that could discourage, delay or prevent a tender offer or takeover attempt at a price which many shareholders may find attractive. The existence of these provisions could limit the price that investors might otherwise pay in the future for shares of our Common and Class B common stock.

Blank Check Preferred Stock. As noted above, our preferred stock could be issued quickly and utilized, under certain circumstances, as a method of discouraging, delaying or preventing a change in control of the Company or make removal of management more difficult.

Election of Directors. Our Articles of Incorporation provide for the filling of vacancies occurring on the Board by certain votes of the remaining directors. These provisions may discourage a third party from voting to remove incumbent directors and simultaneously gaining control of the Board by filling the vacancies created by that removal with its own nominees.

Classified Board. Our Articles of Incorporation provide that our Board shall be divided into three classes serving staggered terms. Approximately one-third of the Board is elected each year. The provision for a classified board could prevent a party who acquires control of a majority of our outstanding capital stock entitled to vote from obtaining control of our Board until the second annual shareholders’ meeting following the date the acquiring party obtains such a controlling interest. The classified board provision could discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of the Company and could increase the likelihood that incumbent directors will retain their positions.

Transfer Agent and Registrar

The transfer agent and registrar for our Common and Class B common stock is American Stock Transfer & Trust Company.

Florida Anti-Takeover Statute

As a Florida corporation, we are subject to certain anti-takeover provisions that apply to public corporations under Florida law. Pursuant to Section 607.0901 of the FBCA, a publicly held Florida corporation may not engage in a broad range of business combinations or other extraordinary corporate transactions with an interested shareholder without the approval of the holders of two-thirds of the voting shares of the corporation (excluding shares held by the interested shareholder), unless:

- the transaction is approved by a majority of disinterested directors before the shareholder becomes an interested shareholder;
- the interested shareholder has owned at least 80% of the corporation’s outstanding voting shares for at least five years preceding the announcement date of any such business combination;

- the interested shareholder is the beneficial owner of at least 90% of the outstanding voting shares of the corporation, exclusive of shares acquired directly from the corporation in a transaction not approved by a majority of the disinterested directors; or
- the consideration paid to the holders of the corporation's voting stock is at least equal to certain fair price criteria.

An interested shareholder is defined as a person who together with affiliates and associates beneficially owns more than 10% of a corporation's outstanding voting shares. We have not made an election in our Articles of Incorporation to opt out of Section 607.0901.

In addition, we are subject to Section 607.0902 of the FBCA, which prohibits the voting of shares in a publicly held Florida corporation that are acquired in a control share acquisition unless (i) our Board approved such acquisition prior to its consummation or (ii) after such acquisition, in lieu of prior approval by our Board, the holders of a majority of the corporation's voting shares, exclusive of shares owned by officers of the corporation, employee directors or the acquiring party, approve the granting of voting rights as to the shares acquired in the control share acquisition. A control share acquisition is defined as an acquisition that immediately thereafter entitles the acquiring party to 20% or more of the total voting power in an election of directors.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth information regarding the beneficial ownership of our Common and Class B common stock by:

- each shareholder known by us to beneficially own more than 5% of any class of our voting securities;
- each of our directors;
- each of our named executive officers; and
- our directors and named executive officers as a group.

The table also contains, in the final column, the combined voting power of the voting securities on all matters presented to the shareholders for their approval, except for the election of directors and for such separate class votes as are required by Florida law. All information is as of March 13, 2012.

Name and Address of Beneficial Owner(1)	Common Stock Beneficially Owned(2)		Class B Common Stock Beneficially Owned(2)		Combined Percent of Voting Securities(2)
	Shares	Percent	Shares	Percent	
Shareholders owning more than 5% of any class of common stock:

- (1) Unless otherwise indicated below, (a) the address of each of the beneficial owners identified is c/o Watsco, Inc., 2665 South Bayshore Drive, Suite 901, Miami, Florida 33133 and (b) each person or group has sole voting and investment power with respect to all such shares.
- (2) Percentages are based on 28,362,424 shares of Common stock and 4,709,932 shares of Class B common stock issued and outstanding as of March 13, 2012. The percentage for each individual shareholder additionally includes the number of shares of common stock that such beneficial owner may acquire within 60 days of March 13, 2012 pursuant to the exercise, exchange or conversion of options or other rights. The number and percentage of shares beneficially owned is determined in accordance with the rules and regulations promulgated under the Exchange Act and the information is not necessarily indicative of beneficial ownership for any other purpose. Under applicable rules of the SEC, although each named person and all directors and executive officers as a group are deemed to be the beneficial owners of securities that may be acquired within 60 days through the exercise of, exchange, or conversion of options or other rights, and the Class B common stock is immediately convertible into Common stock on a one-for-one basis, the number of shares set forth opposite each shareholder's name does not include shares of Common stock issuable upon conversion of our Class B common stock.
- (3) Based on Schedule 13G/A filed on January 10, 2012. The address of BlackRock, Inc., a parent holding company, is 40 East 52nd Street, New York, New York 10022.
- (4) Based on Schedule 13G filed on July 7, 2009. The address of Carrier Corporation, a wholly owned subsidiary of United Technologies Corporation, is One Carrier Place, Farmington, Connecticut 06034.
- (5) Based on Schedule 13G/A filed on February 8, 2012. The address of Capital Research Global Investors, an investment adviser, is 333 South Hope Street, Los Angeles, California 90071.
- (6) Based on Schedule 13G filed on February 14, 2012. The address of FMR LLC, a parent holding company, has sole dispositive power over 1,695,662 of such shares and sole voting power over 131 of such shares. The address of FMR LLC is 82 Devonshire Street, Boston, Massachusetts 02109.

- (7) The number of shares of Common stock indicated are owned pursuant to the Watsco, Inc. Amended and Restated Profit Sharing Retirement Plan & Trust (“Profit Sharing Plan”). The number of shares of Class B common stock indicated consists of (i) 558,564 shares directly owned, (ii) 498,845 shares owned by various trusts, (iii) 1,330,000 shares owned by Albert Capital LP, a limited partnership over which Mr. Nahmad maintains effective control, (iv) 3,000 shares owned by custodial accounts over which Mr. Nahmad is the custodian and (v) 1,695,799 shares issued under Restricted Stock Agreements.
- (8) The number of shares of Common stock indicated consists of (i) 44,355 shares directly owned, (ii) 2,213 shares owned pursuant to the Profit Sharing Plan, (iii) 450 shares owned in an Individual Retirement Account (“IRA”) and (iv) 108,750 shares issued pursuant to Restricted Stock Agreements. The number of shares of Class B common stock indicated consists of (i) 24,976 shares directly owned and (ii) 98,200 shares issued under Restricted Stock Agreements.
- (9) The number of shares of Common stock indicated consists of (i) 21,733 shares directly owned, (ii) 1,115 shares owned pursuant to the Profit Sharing Plan, (iii) 40,000 shares issued pursuant to Restricted Stock Agreements and (iv) 15,000 shares issuable upon exercise of presently exercisable options granted pursuant to the 2001 Plan. The number of shares of Class B common stock indicated consists of shares issued under Restricted Stock Agreements.
- (10) The number of shares of Common stock indicated consists of (i) 200 shares directly owned, (ii) 525 shares owned pursuant to the Profit Sharing Plan, (iii) 37,500 shares issued pursuant to Restricted Stock Agreements and (iv) 20,000 shares issuable upon exercise of presently exercisable options granted pursuant to the 2001 Plan. The number of shares of Class B common stock indicated consists of shares issued under Restricted Stock Agreements.
- (11) The number of shares of Common stock indicated consists of (i) 113 shares owned pursuant to the Profit Sharing Plan and (ii) 5,000 shares issuable upon exercise of presently exercisable options granted pursuant to the 2001 Plan. The number of shares of Class B common stock indicated consists of (i) 51,605 shares directly owned and (ii) 13,200 shares issued under a Restricted Stock Agreement.
- (12) The number of shares of Common stock indicated consists of (i) 51,766 shares directly owned, (ii) 1,800 shares owned in an IRA and (iii) 4,000 shares owned by Mr. Moss’s spouse. Mr. Moss disclaims beneficial ownership of the shares held by his spouse, except to the extent of his pecuniary interest therein.
- (13) The number of shares of Common stock indicates shares directly owned.
- (14) The number of shares of Common stock indicated consists of (i) 296 shares directly owned and (ii) 25,000 shares issuable upon exercise of presently exercisable options granted pursuant to the 2001 Plan.
- (15) The number of shares of Common stock indicates shares issuable upon exercise of presently exercisable options granted pursuant to the 2001 Plan.
- (16) The number of shares of Common stock indicates shares owned by trusts controlled by Mr. Manley. The number of shares of Class B common stock indicates shares owned by a trust controlled by Mr. Manley.
- (17) The number of shares of Common stock indicates shares issuable upon exercise of presently exercisable options granted pursuant to the 2001 Plan.
- (18) Includes shares beneficially owned by directors and named executive officers as described in footnotes (7)-(17).

REVIEW, APPROVAL OR RATIFICATION OF TRANSACTIONS WITH RELATED PARTIES

We review, at least annually, all relationships and transactions in which the Company and our directors or executive officers or their immediate family members are participants to determine whether such persons have a direct or indirect material interest. We may use outside legal counsel to assist in such determination. As required under SEC rules, transactions that are determined to be directly or indirectly material to the Company or a related person are disclosed in the Information Statement. In addition, as set forth in the Audit Committee Charter, the Audit Committee reviews and approves or ratifies any related person transaction that is required to be disclosed. The following is a summary of certain agreements and transactions among related parties and us. It is our policy that any such agreements and transactions must be entered into in good faith and on fair and reasonable terms that are no less favorable to us than those that would be available to us in a comparable transaction in arms-length dealings with an unrelated third party. We believe that all agreements and transactions described below met that standard at the time they were effected and approved or ratified by the Audit Committee.

Mr. Alvarez, a director, is the Executive Chairman of Greenberg, which serves as one of our outside legal counsels and receives customary fees for legal services. During 2011, we paid this firm \$0.1 million for services performed. We currently anticipate that this arrangement will continue.

Aaron J. Nahmad, a director and our Vice President of Strategy and Innovation, is the son of Albert H. Nahmad, our Chairman of the Board, President and CEO. Aaron Nahmad receives annual compensation and benefits that are consistent with the compensation and benefits provided to other executive officers with equivalent qualifications, experience and responsibilities.

NO APPRAISAL OR DISSENTERS' RIGHTS

Our shareholders are not entitled under the FBCA, our Articles of Incorporation or our Bylaws to dissent from any of the provisions adopted in connection with the approval of the Share Issuance, as described in this Information Statement.

DISTRIBUTION OF THE INFORMATION STATEMENT

We will pay all costs associated with the distribution of this Information Statement, including the costs of printing and mailing. We will reimburse brokerage firms and other custodians, nominees and fiduciaries for reasonable expenses incurred by them in sending this Information Statement to the beneficial owners of our Common and Class B common stock.

SHAREHOLDER COMMUNICATIONS WITH THE COMPANY AND THE BOARD

Shareholders may communicate with the Company through its Investor Relations Department by writing to Watsco, Inc., Investor Relations, 2665 South Bayshore Drive, Suite 901, Miami, Florida 33133.

Shareholders interested in communicating with our Board can call (800) 4WATSCO in the United States and request to leave a message for the lead director. You may also contact the lead director by e-mail at presidingdirector@watsco.com or by going to our website at www.watsco.com, under the caption "Lead Director" within the Corporate Governance section. Regardless of the method you use, the lead director will be able to view your unedited message. The lead director will determine whether to relay your message to other members of the Board.

WHERE YOU CAN FIND MORE INFORMATION

We file annual, quarterly and current reports, proxy statements and other information with the SEC. You may read and copy materials that we have filed with the SEC at the SEC's public reference room located at 100 F Street, N.E., Washington, DC 20549. Please call the SEC at 1-800-SEC-0330 for further information on the public reference room. The SEC maintains an internet site that contains reports, proxy and information statements, and other information that we file electronically with the SEC and which are available at the SEC's website at <http://www.sec.gov>. In addition, our SEC filings are available on our website at <http://www.watsco.com>.

You may request a copy of these filings at no cost by writing at Watsco, Inc. Investor Relations, 2665 S. Bayshore Drive, Suite 901, Miami, Florida, 33133 or telephoning us at (305) 714-4100.

NO SOLICITATION OF PROXIES

This Information Statement is furnished to shareholders pursuant to the requirements of Section 14(c) under the Exchange Act to report action taken by written consent of the Majority Shareholders. No action is required upon the part of any other shareholder, and no proxy is being solicited. The cost of this Information Statement will be borne by the Company.

By order of the Board of Directors,

BARRY S. LOGAN
Senior Vice President and Secretary

Watsco, Inc. and Subsidiaries Financial Statements for the Years Ended December 31, 2011, 2010 and 2009

A-1

WATSCO, INC. AND SUBSIDIARIES
MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rules 13a-15(f). Our internal control system was designed to provide reasonable assurance to our management and Board of Directors regarding the reliability of financial reporting and the preparation and fair presentation of our published consolidated financial statements.

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective may not prevent or detect misstatements and can provide only reasonable assurance with respect to financial statement preparation and presentation. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Under the supervision and with the participation of our management, including our Chief Executive Officer, Senior Vice President and Chief Financial Officer, we conducted an assessment of the effectiveness of our internal control over financial reporting as of December 31, 2011. The assessment was based on criteria established in the framework *Internal Control—Integrated Framework*, issued by the Committee of Sponsoring Organizations (“COSO”) of the Treadway Commission. Based on this assessment under the COSO framework, our management concluded that our internal control over financial reporting was effective as of December 31, 2011. The effectiveness of our internal control over financial reporting as of December 31, 2011 has been audited by KPMG LLP, an independent registered public accounting firm, as stated in their report that is included herein.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders
Watsco, Inc.:

We have audited Watsco, Inc.'s (the Company's) internal control over financial reporting as of December 31, 2011, based on criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Watsco, Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Watsco, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2011, based on criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

The Company acquired Carrier Enterprise II during 2011, and management excluded from its assessment of the effectiveness of the Company's internal control over financial reporting as of December 31, 2011, Carrier Enterprise II's internal control over financial reporting, which represented approximately 11% of the Company's total consolidated assets as of December 31, 2011 and approximately 6% of consolidated revenues for the year ended December 31, 2011, included in the consolidated financial statements of Watsco, Inc. and subsidiaries as of and for the year ended December 31, 2011. Our audit of internal control over financial reporting of Watsco, Inc. and subsidiaries also excluded an evaluation of the internal control over financial reporting of Carrier Enterprise II.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Watsco, Inc. and subsidiaries as of December 31, 2011 and 2010, and the related consolidated statements of income, shareholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2011, and our report dated February 29, 2012 expressed an unqualified opinion on those consolidated financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders
Watsco, Inc.:

We have audited the accompanying consolidated balance sheets of Watsco, Inc. and subsidiaries (the Company) as of December 31, 2011 and 2010, and the related consolidated statements of income, shareholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2011. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards as established by the Auditing Standards Board (United States) and in accordance with the auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Watsco, Inc. and subsidiaries as of December 31, 2011 and 2010, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2011, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Watsco, Inc.'s internal control over financial reporting as of December 31, 2011, based on criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated February 29, 2012 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

See accompanying notes to consolidated financial statements.

WATSCO, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(In thousands, except share and per share data)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

Watsco, Inc. and its subsidiaries (collectively, "Watsco," which may be referred to as *we*, *us* or *our*) was incorporated in 1956 and is the largest distributor of air conditioning, heating and refrigeration equipment and related parts and supplies ("HVAC/R") in the HVAC/R distribution industry. At December 31, 2011 we operated from 542 locations in 38 states, Mexico and Puerto Rico with additional market coverage on an export basis to Latin America and the Caribbean.

Basis of Consolidation

The consolidated financial statements contained in this report include the accounts of Watsco and all of its wholly-owned subsidiaries and include the accounts of two joint ventures with Carrier Corporation ("Carrier"), in each of which Watsco maintains a 60% controlling interest. All significant intercompany balances and transactions have been eliminated.

Foreign Currency Translation and Transactions

Our foreign operations generally consider their functional currency to be the U.S. dollar because the majority of their transactions are denominated in U.S. dollars. Gains or losses resulting from transactions denominated in other currencies are recognized in income at each reporting date.

Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses for the reporting period. Significant estimates include valuation reserves for accounts receivable, inventory and income taxes, reserves related to self-insurance programs and valuation of goodwill and indefinite lived intangible assets. While we believe that these estimates are reasonable, actual results could differ from such estimates.

Cash Equivalents

All highly liquid instruments purchased with original maturities of three months or less are considered to be cash equivalents. Cash equivalents at December 31, 2010 included \$10,600 of investment grade municipal securities with put options to the issuer of seven days, which were considered to be cash equivalents for purposes of the consolidated financial statements. Such securities were collateralized by a letter of credit issued by the remarketing agent. At December 31, 2011, no municipal securities were held.

Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable primarily consists of trade receivables due from customers. Our customers are primarily independent contractors and dealers who service the replacement and new construction markets for residential and light commercial central air conditioning, heating and refrigeration systems. We routinely grant credit to customers to facilitate revenue growth and maintain branch locations for product sales and distribution. When determining whether to grant or increase credit, management considers a number of factors, which include creditworthiness, customer payment history and historical experience with the customer and other information. Consistent with industry practices, we normally require payment from our customers within 30 to 45 days. We record our trade receivables at the invoiced amount less an allowance for doubtful accounts. An allowance for doubtful accounts is maintained for estimated losses resulting from the inability of customers to make required payments. When preparing these estimates, we consider a number of factors, including the aging of a customer's account, past transactions with customers, creditworthiness of specific customers, historical trends and other information. We typically do not require our customers to provide collateral. Accounts receivable reserve policies are reviewed periodically, reflecting current risks, trends and changes in industry conditions. The past due status of an account is determined based on stated payment terms. Upon determination that an account is uncollectible, we write off the receivable balance. At December 31, 2011 and 2010, the allowance for doubtful accounts totaled \$12,946 and \$6,343, respectively. Although we believe the allowance is sufficient, a declining economic environment could lead to the deterioration in the financial condition of our customers, resulting in an impairment of their ability to make payments and additional allowances may be required.

Inventories

Inventories consist of air conditioning, heating and refrigeration equipment and related parts and supplies and are valued at the lower of cost or market using a weighted-average cost basis and the first-in, first-out method. As part of the valuation process,

inventory reserves are established to state excess, slow-moving and damaged inventories at their estimated net realizable value. Inventory reserve policies are reviewed periodically, reflecting current risks, trends and changes in industry conditions. A reserve for estimated inventory shrinkage is also maintained to consider inventory shortages determined from cycle counts and physical inventories.

Vendor Rebates

We have arrangements with several vendors that provide rebates payable to us when we achieve any of a number of measures, generally related to the volume level of purchases. We account for such rebates as a reduction of inventory until we sell the product, at which time such rebates are reflected as a reduction of cost of sales in our consolidated statements of income. Throughout the year, we estimate the amount of the rebate based on our estimate of purchases to date relative to the purchase levels that mark our progress toward earning the rebates. We continually revise these estimates of earned vendor rebates based on actual purchase levels. At December 31, 2011 and 2010, we have \$6,386 and \$6,226, respectively, of rebates recorded as a reduction of inventory. Substantially all vendor rebate receivables are collected within three months immediately following the end of the year.

Marketable Securities

Investments in marketable equity securities of \$163 and \$157 at December 31, 2011 and 2010, respectively, are included in other assets in our consolidated balance sheets and are classified as available-for-sale. These equity securities are recorded at market using the specific identification method with unrealized holding losses, net of deferred taxes, reported in accumulated other comprehensive loss ("OCL") within shareholders' equity. Dividend and interest income are recognized in the statement of income when earned. At December 31, 2011 and 2010, \$352 and \$355 of unrealized losses, net of deferred tax benefits of \$216 and \$217, respectively, was included in accumulated OCL.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation and amortization. Depreciation and amortization of property and equipment is computed using the straight-line method. Buildings and improvements are depreciated or amortized over estimated useful lives ranging from 3-40 years. Leasehold improvements are amortized over the shorter of the respective lease terms or estimated useful lives. Estimated useful lives for other depreciable assets range from 3-10 years.

Goodwill and Other Intangible Assets

Goodwill is recorded when the purchase price paid for an acquisition exceeds the fair value of the net identified tangible and intangible assets acquired. We evaluate goodwill for impairment at least annually or more frequently if events or changes in circumstances indicate that the carrying value may not be recoverable. We test goodwill for impairment by first comparing the fair value of our reporting unit to its carrying value. If the fair value is determined to be less than its carrying value, a second step is performed to measure the amount of impairment loss.

Other intangible assets primarily consist of the value of trade names and trademarks, distributor agreements, customer relationships and non-compete agreements. Indefinite lived intangibles not subject to amortization are assessed for impairment at least annually, or more frequently if events or changes in circumstances indicate they may be impaired, by comparing the fair value of the intangible asset to its carrying amount to determine if a write-down to fair value is required. Finite lived intangible assets are amortized using the straight-line method over their respective estimated useful lives.

We perform our annual impairment tests each year and have determined there to be no impairment for any of the periods presented. There have been no events or circumstances from the date of our assessment that would impact this conclusion.

Impairment of Long-Lived Assets Other than Goodwill

Long-lived assets, including intangible assets with finite lives, are tested for recoverability when events or changes in circumstances indicate that the carrying amount of assets may not be recoverable. Recoverability is evaluated by determining whether the amortization of the balance over its remaining life can be recovered through undiscounted future operating cash flows. The amount of impairment if any, is measured based on projected discounted cash flows using a discount rate reflecting the average cost of funds and compared to the asset's carrying value. As of December 31, 2011, there were no such events or circumstances.

Fair Value Measurements

We carry various assets and liabilities at fair value in the consolidated balance sheets. Fair value is defined as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. Fair value measurements are classified based on the following fair value hierarchy:

- Level 1 Quoted prices in active markets for identical assets or liabilities. An active market for an asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2 Observable inputs other than Level 1 prices such as quoted prices in active markets for similar assets or liabilities; quoted prices in markets that are not active; or model-driven valuations or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 Unobservable inputs for the asset or liability. These inputs reflect our own assumptions about the assumptions a market participant would use in pricing the asset or liability.

Revenue Recognition

Revenue primarily consists of sales of air conditioning, heating and refrigeration equipment and related parts and supplies and is recorded when shipment of products or delivery of services has occurred. Assessment of collection is based on a number of factors, including past transactions, creditworthiness of customers, historical trends and other information. Substantially all customer returns relate to products that are returned under warranty obligations underwritten by manufacturers, effectively mitigating our risk of loss for customer returns. Taxes collected from our customers and remitted to governmental authorities are presented in our consolidated statements of income on a net basis.

Advertising Costs

Advertising costs are expensed as incurred. Advertising expense amounted to \$25,052, \$26,646 and \$12,106 for the years ended December 31, 2011, 2010 and 2009, respectively.

Shipping and Handling

Shipping and handling costs associated with inbound freight are capitalized to inventories and relieved through cost of sales as inventories are sold. Shipping and handling costs associated with the delivery of products is included in selling, general and administrative expenses. Shipping and handling costs included in selling, general and administrative expenses amounted to \$30,234, \$25,443 and \$14,829 for the years ended December 31, 2011, 2010 and 2009, respectively.

Share-Based Compensation

The fair value of stock option and non-vested (restricted) stock awards are expensed on a straight-line basis over the vesting period of the awards. Share-based compensation expense is included in selling, general and administrative expenses in our consolidated statements of income. Cash flows from the tax benefits resulting from tax deductions in excess of the compensation expense recognized for those options are classified as financing cash flows. Tax benefits resulting from tax deductions in excess of share-based compensation expense recognized are credited to paid-in capital in the consolidated balance sheets.

Income Taxes

We record U.S. federal, state and foreign income taxes currently payable, as well as deferred taxes due to temporary differences between reporting income and expenses for financial statement purposes versus tax purposes. Deferred tax assets and liabilities reflect the temporary differences between the financial statement and income tax basis of assets and liabilities. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of a change in tax rates is recognized as income or expense in the period that includes the enactment date. We and our eligible subsidiaries file a consolidated U.S. federal income tax return. As income tax returns are generally not filed until well after the closing process for the December 31 financial statements is complete, the amounts recorded at December 31 reflect estimates of what the final amounts will be when the actual income tax returns are filed for that calendar year. In addition, estimates are often required with respect to, among other things, the appropriate state income tax rates to use in the various states that we and our subsidiaries are required to file, the potential utilization of operating loss carryforwards and valuation allowances required, if any, for tax assets that may not be realizable in the future.

We recognize the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the "more-likely-than-not" threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement with the relevant tax authority.

Earnings per Share

We compute earnings per share using the two-class method. The two-class method of computing earnings per share is an earnings allocation formula that determines earnings per share for common stock and any participating securities according to dividends

declared (whether paid or unpaid) and participation rights in undistributed earnings. Shares of our non-vested (restricted) stock are considered participating securities because these awards contain a non-forfeitable right to dividends irrespective of whether the awards ultimately vest. Under the two-class method, earnings per common share for our Common and Class B common stock is computed by dividing the sum of distributed earnings to common shareholders and undistributed earnings allocated to common shareholders by the weighted-average number of shares of Common and Class B common stock outstanding for the period. In applying the two-class method, undistributed earnings are allocated to Common stock, Class B common stock and participating securities based on the weighted-average shares outstanding during the period.

Derivative Instruments

All derivatives, whether designated in hedging relationships or not, are required to be recorded on the balance sheet at fair value. If the derivative is designated as a fair value hedge, the changes in the fair value of the derivative and of the hedged item attributable to the hedged risk are recognized in earnings. If the derivative is designated as a cash flow hedge, the effective portions of changes in the fair value of the derivative are recorded in OCL and are recognized in the income statement when the hedged item affects earnings. Ineffective portions of changes in the fair value of cash flow hedges are recognized in earnings. See Note 11, "Derivative Financial Instrument."

Comprehensive Income

Comprehensive income presents a measure of all changes in shareholders' equity except for changes resulting from transactions with shareholders in their capacity as shareholders. Our comprehensive income consists of net income, changes in the unrealized losses on available-for-sale securities and the effective portion of cash flow hedges as discussed in Note 11. The components of comprehensive income are as follows:

<u>Years Ended December 31,</u>	<u>2011</u>	<u>2010</u>	<u>2009</u>
Net income	\$ 137,742	\$ 111,722	\$ 51,573
Changes in unrealized losses on derivative instruments, net of income tax expense of \$146, \$117 and \$205, respectively	238	194	346
Changes in unrealized losses on available-for-sale securities, net of income tax expense (benefit) of \$3, \$19 and \$(29), respectively	3	34	(42)
Comprehensive income	137,983	111,950	51,877
Less: comprehensive income attributable to noncontrolling interest	47,292	30,962	8,259
Comprehensive income attributable to Watsco, Inc.	<u>\$ 90,691</u>	<u>\$ 80,988</u>	<u>\$ 43,618</u>

Recently Issued Accounting Standards

Presentation of Comprehensive Income

In June 2011, the FASB issued guidance that requires companies to present net income and other comprehensive income in one continuous statement or in two separate but consecutive statements. The new guidance eliminates the current option to report other comprehensive income and its components in the statement of shareholders' equity. In addition, in December 2011, the FASB issued guidance that defers the requirement to present components of reclassifications of other comprehensive income on the face of the income statement. This guidance will be applied retrospectively and will be effective for our interim and annual reporting periods beginning after December 15, 2011. We expect to add new primary consolidated statements of other comprehensive income which will immediately follow our consolidated statements of income to our filings when applicable.

Goodwill Impairment Testing

In September 2011, the FASB amended the guidance on the annual testing of goodwill for impairment. The amended guidance will allow companies to assess qualitative factors to determine whether it is necessary to perform the two-step goodwill impairment test required under current accounting standards. This guidance is effective for annual and interim impairment tests after December 15, 2011. The adoption of this guidance is not expected to have a material impact on our consolidated financial statements.

2. EARNINGS PER SHARE

The following table presents the calculation of basic and diluted earnings per common share for our Common and Class B common stock:

<i>Years Ended December 31,</i>	<u>2011</u>	<u>2010</u>	<u>2009</u>
Basic Earnings per Share:			
Net income attributable to Watsco, Inc. shareholders	\$ 90,450	\$ 80,760	\$ 43,314
Less: distributed and undistributed earnings allocated to non-vested (restricted) common stock	6,045	4,775	3,320
Earnings allocated to Watsco, Inc. shareholders	\$ 84,405	\$ 75,985	\$ 39,994
Weighted-average Common and Class B common shares outstanding for basic earnings per share	30,678,206	30,467,212	28,223,275
Basic earnings per share for Common and Class B common stock	\$ 2.75	\$ 2.49	\$ 1.42
Allocation of earnings for Basic:			
Common stock	\$ 76,574	\$ 68,856	\$ 35,963
Class B common stock	7,831	7,129	4,031
	\$ 84,405	\$ 75,985	\$ 39,994
Diluted Earnings per Share:			
Net income attributable to Watsco, Inc. shareholders	\$ 90,450	\$ 80,760	\$ 43,314
Less: distributed and undistributed earnings allocated to non-vested (restricted) common stock	6,042	4,772	3,320
Earnings allocated to Watsco, Inc. shareholders	\$ 84,408	\$ 75,988	\$ 39,994
Weighted-average Common and Class B common shares outstanding for basic earnings per share	30,678,206	30,467,212	28,223,275
Effect of dilutive stock options	75,085	111,396	298,162
Weighted-average Common and Class B common shares outstanding for diluted earnings per share	30,753,291	30,578,608	28,521,437
Diluted earnings per share for Common and Class B common stock	\$ 2.74	\$ 2.49	\$ 1.40

Diluted earnings per share for our Common stock assumes the conversion of all of our Class B common stock into Common stock as of the beginning of the fiscal year and adjusts for the dilutive effects of outstanding stock options using the treasury stock method; therefore, no allocation of earnings to Class B common stock is required. As of December 31, 2011, 2010 and 2009, our outstanding Class B common stock was convertible into 2,846,334, 2,858,592 and 2,844,935 shares of our Common stock, respectively.

Diluted earnings per share excluded 33,511, 129,641 and 217,832 shares for the years ended December 31, 2011, 2010 and 2009, respectively, related to stock options with an exercise price per share greater than the average market value, resulting in an anti-dilutive effect on diluted earnings per share.

3. SUPPLIER CONCENTRATION

We have four key suppliers of HVAC/R equipment products. Purchases from these four suppliers comprised 71%, 72% and 66% of all purchases made in 2011, 2010 and 2009, respectively, with the largest supplier, Carrier and its affiliates, accounting for 54%, 52% and 41% of all purchases made in each of the years ended December 31, 2011, 2010 and 2009, respectively. Any significant interruption by Carrier or the other key suppliers in the delivery of products could impair our ability to maintain current inventory levels or a termination of a distribution agreement could disrupt the operations of certain subsidiaries and could materially impact our consolidated results of operations and consolidated financial position. See Note 14.

4. PROPERTY AND EQUIPMENT

Property and equipment, net, consists of:

<u>December 31,</u>	<u>2011</u>	<u>2010</u>
Land	\$ 1,388	\$ 1,388
Buildings and improvements	42,408	34,521
Machinery, vehicles and equipment	52,636	48,821
Furniture and fixtures	15,049	13,765
	<u>111,481</u>	<u>98,495</u>
Less: accumulated depreciation and amortization	<u>(72,026)</u>	<u>(67,274)</u>
	<u>\$ 39,455</u>	<u>\$ 31,221</u>

Depreciation and amortization expense related to property and equipment included in selling, general and administrative expenses amounted to \$9,364, \$8,832 and \$7,342 for the years ended December 31, 2011, 2010 and 2009, respectively.

5. DEBT

Watsco Revolving Credit Agreement

We maintain a bank-syndicated, unsecured revolving credit agreement that provides for borrowings of up to \$300,000. Borrowings are used to fund seasonal working capital needs and for other general corporate purposes, including acquisitions, dividends, stock repurchases and issuances of letters of credit. Included in the facility are a \$25,000 swingline subfacility and a \$50,000 letter of credit subfacility. Borrowings bear interest at primarily LIBOR-based rates plus a spread which ranges from 37.5 to 112.5 basis-points depending upon our ratio of total debt to EBITDA (LIBOR plus 40 basis-points at December 31, 2011). We pay a variable commitment fee on the unused portion of the commitment, ranging from 7.5 to 20 basis-points (8 basis-points at December 31, 2011). Alternatively, we may elect to have borrowings bear interest at the Prime Rate or the Federal Funds Rate plus our spread. At December 31, 2011 and 2010, \$20,000 and \$10,000 were outstanding under this revolving credit agreement, respectively. The credit agreement matures in August 2012 and, accordingly, borrowings outstanding under the credit agreement are classified as current liabilities in our consolidated balance sheet at December 31, 2011. We have obtained indicative term sheets at competitive rates and terms and intend to refinance this bank-syndicated, unsecured revolving credit agreement prior to its maturity however, there is no assurance that we will be able to refinance with the same terms and conditions.

In July 2009, we amended our credit agreement to allow for the consummation of the first joint venture with Carrier, Carrier Enterprise, LLC ("Carrier Enterprise I"). We paid an amendment fee of \$5,483, which is being amortized ratably through the maturity of the facility in August 2012. All other significant terms and conditions remained the same, including capacity, pricing and covenant structure.

The revolving credit agreement contains customary affirmative and negative covenants including financial covenants with respect to consolidated leverage and interest coverage ratios, limits on capital expenditures, dividends and share repurchases, and other restrictions. We believe we were in compliance with all covenants and financial ratios at December 31, 2011.

Carrier Enterprise I Revolving Credit Agreement

Carrier Enterprise I maintains a separate bank-syndicated, secured revolving credit agreement that provides for borrowings of up to \$125,000. Effective July 1, 2011, Carrier Enterprise I's standard payment terms with Carrier for inventory purchases accelerated. As a result of this change, on July 26, 2011 we amended the revolving credit agreement to increase available borrowings to \$125,000 from \$75,000. All other terms and conditions of the credit facility remained the same. Borrowings under the credit facility are used for general corporate purposes, including working capital and permitted acquisitions. Included in the facility are a \$15,000 swing loan subfacility and a \$5,000 letter of credit subfacility. Borrowings bear interest at primarily LIBOR-based rates plus a spread which ranges from 275 to 325 basis-points depending upon Carrier Enterprise I's ratio of total debt to EBITDA (LIBOR plus 275 basis-points at December 31, 2011). Carrier Enterprise I pays a fixed commitment fee on the unused portion of the commitment of 50 basis-points. Alternatively, Carrier Enterprise I has the option to elect to have borrowings bear interest at the higher of the Prime Rate, the Federal Funds Rate plus 50 basis-points or a LIBOR-based rate plus 150 basis-points. The credit facility is secured by substantially all tangible and intangible assets of Carrier Enterprise I. At December 31, 2011 and 2010, no borrowings were outstanding under this credit facility. The credit agreement matures in July 2012. We have obtained indicative term sheets at competitive rates and terms and intend to refinance, on an unsecured basis, this bank-syndicated revolving credit agreement prior to its maturity however, there is no assurance that we will be able to refinance with the same terms and conditions. Carrier Enterprise I paid fees of \$1,212 in connection with entering into the credit agreement, which are being amortized ratably through the maturity of the facility in July 2012.

The Carrier Enterprise I revolving credit agreement contains customary affirmative and negative covenants and representations and warranties, including compliance with a monthly borrowing base certificate with advance rates on accounts receivable and inventory, two financial covenants with respect to its leverage and interest coverage ratios, limits on capital expenditures and cash distributions, and other restrictions. We believe Carrier Enterprise I was in compliance with all covenants and financial ratios at December 31, 2011.

6. INCOME TAXES

The components of income tax expense from our wholly-owned operations and investments and our 60% controlling interest in joint ventures with Carrier are as follows:

<u>Years Ended December 31,</u>	<u>2011</u>	<u>2010</u>	<u>2009</u>
U.S. Federal	\$50,197	\$44,845	\$24,308
State	6,338	5,515	2,448
Foreign	315	—	—
	<u>\$56,850</u>	<u>\$50,360</u>	<u>\$26,756</u>
Current	\$48,540	\$37,635	\$24,784
Deferred	8,310	12,725	1,972
	<u>\$56,850</u>	<u>\$50,360</u>	<u>\$26,756</u>

We calculate our income tax expense and our effective tax rate for 100% of income attributable to our wholly-owned operations and investments and 60% of income attributable to our joint ventures with Carrier, which are taxed as partnerships for income tax purposes.

Following is a reconciliation of the effective income tax rate:

<u>Years Ended December 31,</u>	<u>2011</u>	<u>2010</u>	<u>2009</u>
U.S. federal statutory rate	35.0%	35.0%	35.0%
State income taxes, net of federal benefit and other	3.1	3.0	2.8
Tax effects on foreign income	(0.1)	—	—
Effective income tax rate attributable to Watsco, Inc.	38.0	38.0	37.8
Taxes attributable to noncontrolling interest	(8.8)	(6.9)	(3.6)
Effective income tax rate	<u>29.2%</u>	<u>31.1%</u>	<u>34.2%</u>

The following is a summary of the significant components of our current and long-term deferred tax assets and liabilities:

<u>December 31,</u>	<u>2011</u>	<u>2010</u>
Current deferred tax assets:		
Capitalized inventory costs and inventory reserves	\$ 2,966	\$ 2,183
Allowance for doubtful accounts	1,634	1,122
Other current deferred tax assets	979	845
Self-insurance reserves	769	1,523
Total current deferred tax assets (1)	<u>6,348</u>	<u>5,673</u>
Long-term deferred tax assets:		
Share-based compensation	11,688	9,890
Other long-term deferred tax assets	1,021	834
Net operating loss carryforwards	648	1,338
Unrealized loss on derivative instruments	—	152
	<u>13,357</u>	<u>12,214</u>
Valuation allowance	<u>(423)</u>	<u>(1,117)</u>
Total long-term deferred tax assets (2)	<u>12,934</u>	<u>11,097</u>
Long-term deferred tax liabilities:		
Deductible goodwill	(46,057)	(37,567)
Depreciation	(2,500)	(20)
Other long-term deferred tax liabilities	(1,141)	(1,142)
Total long-term deferred tax liabilities (2)	<u>(49,698)</u>	<u>(38,729)</u>
Net deferred tax liabilities	<u>\$ (30,416)</u>	<u>\$ (21,959)</u>

(1) Current deferred tax assets have been included in the consolidated balance sheets in other current assets.

(2) Long-term deferred tax assets and liabilities have been included in the consolidated balance sheets in deferred income taxes and other liabilities.

U.S. income taxes have not been provided on the undistributed earnings of international subsidiaries, as those earnings are considered to be permanently reinvested in the operations of those subsidiaries.

Management has determined that \$423 and \$1,117 of valuation allowance was necessary at December 31, 2011 and 2010, respectively, to reduce the deferred tax assets to the amount that will more likely than not be realized. At December 31, 2011, there were state and other net operating loss carryforwards of \$9,491, which expire in varying amounts from 2012 through 2031. These amounts are available to offset future taxable income. There were no federal net operating loss carryforwards at December 31, 2011.

We are subject to U.S. federal income tax, income tax of multiple state jurisdictions and foreign income tax. We are subject to tax audits in the various jurisdictions until the respective statutes of limitations expire. We are no longer subject to U.S. federal tax examinations for tax years prior to 2008. For the majority of states, we are no longer subject to tax examinations for tax years prior to 2007.

As of December 31, 2011 and 2010, the total amount of gross unrecognized tax benefits (excluding the federal benefit received from state positions) was \$2,424 and \$1,889, respectively. Of these totals, \$1,773 and \$1,419, respectively, (net of the federal benefit received from state positions) represent the amount of unrecognized tax benefits that, if recognized, would affect the effective tax rate. Our continuing practice is to recognize penalties within selling, general and administrative expenses and interest related to income tax matters in income tax expense in the consolidated statements of income. As of December 31, 2011 and 2010, the cumulative amount of estimated accrued interest and penalties resulting from such unrecognized tax benefits was \$495 and \$379, respectively, and is included in deferred income taxes and other liabilities in the accompanying consolidated balance sheets.

The change in gross unrecognized tax benefits during 2011 and 2010 is as follows:

Gross balance at January 1, 2010	\$1,990
Additions based on tax positions related to the current year	197
Reductions due to lapse of applicable statute of limitations	(298)
Gross balance at December 31, 2010	1,889
Additions based on tax positions related to the current year	542
Reductions due to lapse of applicable statute of limitations	(7)
Gross balance at December 31, 2011	<u>\$2,424</u>

7. SHARE-BASED COMPENSATION AND BENEFIT PLANS

Share-Based Compensation Plans

We have two share-based compensation plans for employees. The 2001 Incentive Compensation Plan (the "2001 Plan") provides for the award of a broad variety of share-based compensation alternatives such as non-qualified stock options, incentive stock options, non-vested (restricted) stock, performance awards, dividend equivalents, deferred stock and stock appreciation rights at no less than 100% of the market price on the date the award is granted. To date, awards under the 2001 Plan consist of non-qualified stock options and non-vested (restricted) stock. Under the 2001 Plan, awards for an aggregate of 4,000,000 shares of Common and Class B common stock may be granted. A total of 1,839,412 shares of Common stock, net of cancellations and 1,577,298 shares of Class B common stock, net of cancellations have been awarded under the 2001 Plan as of December 31, 2011. There were 583,290 shares of common stock reserved for future grants as of December 31, 2011 under the 2001 Plan. There were 385,150 options of common stock outstanding under the 2001 Plan at December 31, 2011. Options under the 2001 Plan vest over two to five years of service and have contractual terms of five to ten years.

Awards of non-vested (restricted) stock, which are granted at no cost to the employee, vest upon attainment of a certain age, generally the employee's respective retirement age. Vesting may be accelerated in certain circumstances prior to the original vesting date.

We also maintain the 1991 Stock Option Plan (the "1991 Plan"), which expired during 2001; therefore, no additional options may be granted. There are no options of common stock outstanding under the 1991 Plan at December 31, 2011.

A summary of stock option activity under the 2001 Plan and 1991 Plan as of December 31, 2011, and changes during 2011, is as follows:

	Options	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value
Options outstanding at January 1, 2011	493,000	\$ 43.80		
Granted	70,000	62.75		
Exercised	(126,100)	37.46		
Forfeited	(34,000)	49.92		
Expired	(17,750)	64.56		
Options outstanding at December 31, 2011	<u>385,150</u>	<u>\$ 47.82</u>	<u>2.76</u>	<u>\$ 6,892</u>
Options exercisable at December 31, 2011	<u>150,734</u>	<u>\$ 34.30</u>	<u>1.54</u>	<u>\$ 4,727</u>

The weighted-average grant date fair value of stock options granted during 2011, 2010 and 2009 was \$12.31, \$11.45 and \$9.93, respectively. The total intrinsic value of stock options exercised during 2011, 2010 and 2009 was \$4,724, \$6,559 and \$11,555, respectively. The fair value of stock options that vested during 2011, 2010 and 2009 was \$475, \$597 and \$3,750, respectively.

A summary of non-vested (restricted) stock activity as of December 31, 2011, and changes during 2011, is shown below:

	Shares	Weighted-Average Grant Date Fair Value
Non-vested (restricted) stock outstanding at January 1, 2011	1,872,291	\$ 31.47
Granted	429,602	63.87
Vested	(9,445)	50.71
Forfeited	(30,500)	54.64
Non-vested (restricted) stock outstanding at December 31, 2011	<u>2,261,948</u>	<u>\$ 37.23</u>

The weighted-average grant date fair value of non-vested (restricted) stock granted during 2011, 2010 and 2009 was \$63.87, \$49.43 and \$49.62, respectively. The fair value of non-vested stock that vested during 2011, 2010 and 2009 was \$672, \$3,609 and \$1,460, respectively.

During 2011, 2010 and 2009, 2,527 shares of Common stock with an aggregate fair market value of \$180, 19,678 shares of Common stock with an aggregate fair market value of \$1,155 and 601 shares of Common stock with an aggregate fair market value of \$23, respectively, were delivered as payment in lieu of cash to satisfy tax withholding obligations in connection with the vesting of non-vested (restricted) stock. These shares were retired upon delivery. At December 31, 2011, we were obligated to issue 58,301 shares of non-vested (restricted) Class B common stock under an executive compensation agreement. We issued these non-vested (restricted) shares of Class B common stock in the first quarter of 2012.

Share-Based Compensation Fair Value Assumptions

The fair value of each stock option award is estimated on the date of grant using the Black-Scholes option pricing valuation model based on the weighted-average assumptions noted in the table below. The fair value of each stock option award, which is subject to graded vesting, is expensed, net of estimated forfeitures, on a straight-line basis over the requisite service period for each separately vesting portion of the stock option. We use historical data to estimate stock option forfeitures within the valuation model. The expected term of stock option awards granted represents the period of time that stock option awards granted are expected to be outstanding and was calculated using the simplified method for plain vanilla options, which we estimate provides a reasonable estimate of expected life based on our historical data. The risk-free rate for periods within the contractual life of the stock option award is based on the yield curve of a zero-coupon U.S. Treasury bond on the date the stock option award is granted with a maturity equal to the expected term of the stock option award. Expected volatility is based on historical volatility of our stock.

The weighted-average assumptions relating to the valuation of our stock options were as follows:

<u>Years Ended December 31,</u>	<u>2011</u>	<u>2010</u>	<u>2009</u>
Expected term in years	4.25	4.25	4.25
Risk-free interest rate	1.12%	1.14%	1.96%
Expected volatility	32.59%	33.35%	34.03%
Expected dividend yield	3.48%	3.65%	4.32%

Share-Based Compensation Expense

Share-based compensation expense included in selling, general and administrative expenses amounted to \$6,663, \$5,175 and \$5,264 for the years ended December 31, 2011, 2010 and 2009, respectively.

Cash received from Common stock issued as a result of stock options exercised during 2011, 2010 and 2009 was \$4,530, \$5,285 and \$9,592, respectively. During 2011, 2010 and 2009, 7,616 shares of Common stock with an aggregate fair market value of \$437, 56,043 shares of Common and Class B common stock with an aggregate fair market value of \$3,212 and 205,428 shares of Common and Class B common stock with an aggregate fair market value of \$9,415, respectively, were delivered as payment in lieu of cash for stock option exercises and related tax withholdings. These shares were retired upon delivery. In connection with stock option exercises, the tax benefits realized from share-based compensation plans totaled \$916, \$3,083 and \$9,789, for the years ended December 31, 2011, 2010 and 2009, respectively.

At December 31, 2011, there was \$1,354 of unrecognized share-based compensation expense related to stock options granted under the 2001 Plan, which is expected to be recognized over a weighted-average period of 1.7 years. At December 31, 2011, there was \$55,249 of unrecognized share-based compensation expense related to non-vested (restricted) stock, which is expected to be recognized over a weighted-average period of 10.9 years. In the event that vesting is accelerated for any circumstance, as defined in the related agreements, the remaining unrecognized share-based compensation expense would be immediately recognized as a charge to earnings. Approximately \$38,000 of the unrecognized share-based compensation for shares of non-vested (restricted) stock is related to awards granted to our Chief Executive Officer that vest in approximately 11 years upon his attainment of age 82.

Employee Stock Purchase Plan

The Watsco, Inc. Third Amended and Restated 1996 Qualified Employee Stock Purchase Plan (the "ESPP") provides for up to 1,500,000 shares of Common stock to be available for purchase by our full-time employees with at least 90 days of service. The plan allows participating employees to purchase, through payroll deductions or lump-sum contribution, shares of Common stock with a discount of 5% of the fair market value at specified times. During 2011, 2010 and 2009, employees purchased 8,520, 8,515 and 10,917 shares of Common stock at an average price of \$59.44, \$51.69 and \$38.18 per share, respectively. Cash dividends received by the ESPP were reinvested in Common stock and resulted in the issuance of 5,097, 5,812 and 7,503 additional shares for the years ended December 31, 2011, 2010 and 2009, respectively. We received net proceeds of \$829, \$757 and \$743, respectively, during 2011, 2010 and 2009, for shares of our Common stock issued under the ESPP. At December 31, 2011, 555,059 shares remained available for purchase under the plan.

401(k) Plan

We have a profit sharing retirement plan for our employees that is qualified under Section 401(k) of the Internal Revenue Code. Annual matching contributions are made based on a percentage of eligible employee compensation deferrals. The contribution has historically been made with the issuance of Common stock to the plan on behalf of our employees. For the years ended December 31, 2011, 2010 and 2009, we issued 27,240, 9,975 and 33,779 shares of Common stock to the plan representing the Common stock discretionary matching contribution of \$1,718, \$489 and \$1,297, respectively.

8. ACQUISITIONS

Carrier Enterprise Northeast, LLC Joint Venture

On April 29, 2011, we completed the formation of a second joint venture with Carrier to distribute Carrier, Bryant and Payne branded residential, light-commercial and applied-commercial HVAC products and related parts and supplies in the northeast U.S. Carrier contributed 28 of its company-operated northeastern locations to the newly formed joint venture and we contributed 14 of our northeast locations. We purchased a 60% controlling interest in the joint venture for a fair value of \$49,229. Total consideration paid by us for our 60% controlling interest in the joint venture was composed of cash consideration of \$35,700 and our contribution of 14 northeastern locations valued at \$14,769. The final purchase price was subject to a \$1,240 net working capital adjustment pursuant to the related purchase and contribution agreement.

The purchase price resulted in the recognition of \$32,957 in goodwill and intangibles. The fair value of the identified intangible assets was \$20,600 and consisted of \$13,400 in trade names and distribution rights and \$7,200 in customer relationships to be amortized over a 12 year period. The tax basis of the acquired goodwill recognized is deductible for income tax purposes over 15 years.

The purchase price allocation is based upon a purchase price of \$49,229, which represents the fair value of our 60% controlling interest in the joint venture. The table below presents the allocation of the total consideration to tangible and intangible assets acquired, liabilities assumed and the noncontrolling interest from the acquisition of our 60% controlling interest in the joint venture based on the respective fair values as of April 29, 2011:

Cash	\$ 5
Accounts receivable	24,300
Inventories	39,003
Other current assets	773
Property and equipment	4,402
Goodwill	12,357
Intangibles	20,600
Other assets	202
Accounts payable and accrued expenses	(22,894)
Noncontrolling interest	(29,519)
Total purchase price	<u>\$ 49,229</u>

The fair value of the noncontrolling interest was determined by applying a pro-rata value of the total invested capital adjusted for a discount for lack of control that market participants would consider when estimating the fair value of the noncontrolling interest. As a result of our contribution of 14 locations to the joint venture, \$7,708 representing 40% of the carrying value of the contributed locations was attributed to the noncontrolling interest and \$7,061 representing 40% of the difference between the fair value and carrying value of the contributed locations, was recognized as an increase to paid-in capital.

On July 29, 2011, we acquired a 60% controlling interest in Carrier's HVAC/R distribution operations in Mexico for cash consideration of \$9,000. Carrier's company-operated Mexico distribution network had revenues of approximately \$75,000 in 2010 and operated from seven locations. Products sold include Carrier's complete product line of HVAC equipment and commercial refrigeration products and supplies servicing both the residential and applied commercial markets.

The unaudited pro forma financial information combining our results of operations with the operations of the new 28 locations in the Northeast U.S. and the seven locations in Mexico (collectively, "Carrier Enterprise II") as if the joint venture had been consummated on January 1, 2010 is as follows:

<u>Years ended December 31,</u>	<u>2011</u>	<u>2010</u>
Revenues	\$3,073,926	\$3,131,069
Net income	138,818	118,194
Less: net income attributable to noncontrolling interest	48,179	35,660
Net income attributable to Watsco, Inc.	\$ 90,639	\$ 82,534
Diluted earnings per share for Common and Class B common stock	\$ 2.75	\$ 2.54

This unaudited pro forma financial information is presented for informational purposes only. The unaudited pro forma financial information from the beginning of the periods presented until the acquisition date includes adjustments to record income taxes related to our portion of Carrier Enterprise II's income and amortization related to identified intangible assets with finite lives. The unaudited pro forma financial information does not include adjustments to add or remove certain corporate expenses of Carrier Enterprise II, which may not be incurred in future periods, or adjustments for depreciation or synergies that may be realized subsequent to the acquisition date. The unaudited pro forma financial information may not necessarily reflect our future results of operations or what the results of operations would have been had we acquired our 60% controlling interest in and operated Carrier Enterprise II as of the beginning of the periods presented.

Carrier Enterprise, LLC Joint Venture

In July 2009, we completed the formation of Carrier Enterprise I, which is a joint venture between us and Carrier. Carrier contributed to Carrier Enterprise I 95 locations in the U.S. Sunbelt and Puerto Rico and Carrier's export division located in Miami, Florida, and we contributed 15 locations that distributed Carrier products. We purchased a 60% controlling interest in the joint venture for a fair value of \$181,474 with options to purchase up to an additional 20% interest from Carrier (10% beginning in July 2012 and an additional 10% in July 2014). Total consideration paid by us for our 60% controlling interest in Carrier Enterprise I was composed of our issuance to Carrier of 2,985,685 shares of Common stock and 94,784 shares of Class B common stock having a fair value of \$151,056 and our contribution of 15 locations that sold Carrier-manufactured products valued at \$23,217. The final purchase price was subject to \$7,201 of working capital adjustments pursuant to the related purchase and contribution agreement.

Based on our valuation we recognized \$131,341 in goodwill and intangibles. The fair value of the identified intangible assets was \$49,100 and consisted of \$32,400 in trade names and distribution rights and \$16,700 in customer relationships. The tax basis of the acquired goodwill recognized is deductible for income tax purposes over 15 years.

The purchase price allocation is based upon a purchase price of \$181,474 which represents the fair value of our 60% controlling interest in Carrier Enterprise I. The table below presents the allocation of the total consideration to tangible and intangible assets acquired, liabilities assumed and the noncontrolling interest from the acquisition of our 60% controlling interest in Carrier Enterprise I based on the respective fair values as of July 1, 2009:

Accounts receivable	\$ 186,082
Inventories	125,796
Other current assets	4,253
Property and equipment	10,048
Goodwill	82,241
Intangibles	49,100
Other assets	1,725
Accounts payable and accrued expenses	(163,485)
Other liabilities	(5,403)
Noncontrolling interest	(108,883)
Total purchase price	\$ 181,474

The fair value of the noncontrolling interest was determined by applying a pro-rata value of the total invested capital adjusted for a discount for lack of control that market participants would consider when estimating the fair value of the noncontrolling interest. As a result of our contribution of 15 locations to the joint venture, \$12,448 representing 40% of the carrying value of the contributed locations was attributed to the noncontrolling interest and \$10,768 representing 40% of the difference between the fair value and carrying value of the contributed locations was recognized as an increase to paid-in capital.

In August 2009, a capital contribution in the amount of \$80,000 was made to Carrier Enterprise I pursuant to the related purchase and contribution agreement. Our share of the contribution totaling \$48,000 was made as an additional capital contribution to Carrier Enterprise I in cash. Carrier's share of the contribution totaling \$32,000 consisted of inventory. In March 2011, Carrier Enterprise I returned the \$80,000 capital contribution made in 2009 using cash on hand. Our share of the return of capital totaled \$48,000 and Carrier's share totaled \$32,000.

Revenues of \$588,065 and net income attributable to Watsco, Inc. of \$6,971 were contributed by the new Carrier Enterprise I locations during the year ended December 31, 2009. The unaudited pro forma financial information combining our results of operations with the operations of Carrier Enterprise I as if the joint venture had been consummated on January 1, 2009 is as follows:

<u>Year ended December 31,</u>	<u>2009</u>
Revenues	\$2,562,319
Net income	59,874
Less: net income attributable to noncontrolling interest	13,332
Net income attributable to Watsco, Inc.	\$ 46,542
Diluted earnings per share for Common and Class B common stock	\$ 1.44

This unaudited pro forma financial information is presented for informational purposes only. The unaudited pro forma financial information from the beginning of the period presented until the acquisition date includes adjustments to record income taxes related to our portion of Carrier Enterprise I's income, bank fees paid to amend our \$300,000 revolving credit agreement upon the consummation of the joint venture, bank fees paid by Carrier Enterprise I to enter into a secured three-year \$75,000 revolving credit agreement and amortization related to identified intangible assets with finite lives. The unaudited pro forma financial information does not include adjustments to remove certain corporate expenses of Carrier Enterprise I, adjustments for depreciation or synergies (primarily related to improved gross profit and lower general and administrative expenses) that may be realized subsequent to the acquisition date. The unaudited pro forma financial information does not necessarily reflect our future results of operations or what the results of operations would have been had we owned and operated Carrier Enterprise I as of the beginning of the period presented.

Other Acquisitions

In April 2010, one of our wholly-owned subsidiaries acquired certain assets and assumed certain liabilities of a wholesale distributor of air conditioning and heating products operating from two locations in Tennessee for cash consideration of \$2,406.

In August 2009, one of our wholly-owned subsidiaries acquired certain assets and assumed certain liabilities of a wholesale distributor of air conditioning and heating products operating from six locations in Utah for cash consideration of \$4,057, net of cash acquired.

The results of operations of these acquired locations have been included in the consolidated financial statements from their respective dates of acquisition. The pro forma effect of the April 2010 and August 2009 acquisitions were not deemed significant to the consolidated financial statements.

Transaction costs

Approximately \$1,200 of transaction costs is included in selling, general and administrative expenses in our consolidated statement of income for the year ended December 31, 2011 primarily associated with the closing and transition of Carrier Enterprise II. Approximately \$4,800 of transaction costs is included in selling, general and administrative expenses in our consolidated statement of income for the year ended December 31, 2009 primarily associated with the closing and transition of Carrier Enterprise I.

9. GOODWILL AND OTHER INTANGIBLE ASSETS

The changes in the carrying amount of goodwill are as follows:

Balance at December 31, 2009	\$303,257
Acquired goodwill	446
Balance at December 31, 2010	303,703
Acquired goodwill	15,737
Balance at December 31, 2011	<u>\$319,440</u>

Intangible assets, net consist of:

<u>December 31,</u>	<u>Estimated Useful Lives</u>	<u>2011</u>	<u>2010</u>
Indefinite lived intangible assets:			
Trade names, trademarks and distribution rights		\$50,503	\$37,963
Finite lived intangible assets:			
Customer relationships	10-15 years	29,530	22,120
Trade name	10 years	1,150	—
Non-compete agreements	7 years	369	369
Less: accumulated amortization		(6,186)	(3,825)
Finite lived intangible assets, net		24,863	18,664
		<u>\$75,366</u>	<u>\$56,627</u>

Amortization expense related to finite lived intangible assets included in selling, general and administrative expenses amounted to \$2,361, \$1,939 and \$1,191 for the years ended December 31, 2011, 2010 and 2009, respectively. The future amortization expense for each of the five succeeding years related to all finite lived intangible assets that are currently recorded in the consolidated balance sheets is estimated to be as follows at December 31, 2011:

2012	\$ 2,506
2013	2,496
2014	2,472
2015	2,461
2016	2,461
Total	<u>\$12,396</u>

10. SHAREHOLDERS' EQUITY

Common Stock

Common stock and Class B common stock share equally in earnings and are identical in most other respects except (i) Common stock is entitled to one vote on most matters and each share of Class B common stock is entitled to ten votes; (ii) shareholders of Common stock are entitled to elect 25% of the Board of Directors (rounded up to the nearest whole number) and Class B shareholders are entitled to elect the balance of the Board of Directors; (iii) cash dividends may be paid on Common stock without paying a cash dividend on Class B common stock and no cash dividend may be paid on Class B common stock unless at least an equal cash dividend is paid on Common stock and (iv) Class B common stock is convertible at any time into Common stock on a one-for-one basis at the option of the shareholder.

Preferred Stock

We are authorized to issue preferred stock with such designation, rights and preferences as may be determined from time to time by our Board of Directors. Accordingly, the Board of Directors is empowered, without shareholder approval, to issue preferred stock with dividend, liquidation, conversion, voting or other rights which could adversely affect the voting power or other rights of the holders of our Common stock and Class B common stock and, in certain instances, could adversely affect the market price of this stock. We had no preferred stock outstanding at December 31, 2011 and 2010.

Euronext Listing

In October 2010, we listed our Common stock on the Professional Segment of NYSE Euronext in Paris ("Euronext"). On September 24, 2010, the French *Autorité des Marchés Financiers* approved the prospectus and correspondingly granted a visa number for admission of our Common stock to listing and trading on Euronext. Our shares began trading on Euronext on October 21, 2010 under the symbol "WSO" and are denominated in Euros on the Paris venue. The cross listing does not alter our share count, capital structure or current stock-listings and is intended to promote additional liquidity for investors as well as provide greater access to our shares in Euro-zone markets and currencies.

Stock Repurchase Plan

In September 1999, our Board of Directors authorized the repurchase, at management's discretion, of up to 7,500,000 shares of common stock in the open market or via private transactions. Shares repurchased under the program are accounted for using the cost method and result in a reduction of shareholders' equity. No shares were repurchased during 2011, 2010 or 2009. In aggregate, 6,322,650 shares of Common stock and 48,263 shares of Class B common stock have been repurchased at a cost of \$114,425 since the inception of the program. The repurchase of up to the remaining 1,129,087 shares authorized for repurchase is subject to certain restrictions included in our revolving credit agreements.

11. FINANCIAL INSTRUMENTS

Recorded Financial Instruments

Recorded financial instruments consist of cash and cash equivalents, accounts receivable, accounts payable, the current portion of long-term obligations, borrowings under our revolving credit agreements and debt instruments included in other long-term obligations. At December 31, 2011 and 2010, the fair values of cash and cash equivalents, accounts receivable, accounts payable and the current portion of long-term obligations approximated their carrying values due to the short-term nature of these instruments.

The fair values of variable rate borrowings under our revolving credit agreements and debt instruments included in long-term obligations also approximate their carrying value based upon interest rates available for similar instruments with consistent terms and remaining maturities.

Derivative Financial Instrument

Periodically, we enter into interest rate swap agreements to reduce our exposure to interest rate risk from changing interest rates under our revolving credit agreements. Under the terms of the swap agreements, we agree to exchange, at specified intervals, the difference between fixed and variable interest amounts calculated by reference to the notional principal amount. Any differences paid or received on our interest rate swap agreements are recognized as adjustments to interest expense over the life of each swap, thereby adjusting the effective interest rate on the underlying obligation. Financial instruments are not held or issued for trading purposes. In order to obtain hedge accounting treatment, any derivatives used for hedging purposes must be designated as, and effective as, a hedge of an identified risk exposure at the inception of the contract. Changes in the fair value of the derivative contract must be highly correlated with changes in the fair value of the underlying hedged item at inception of the hedge and over the life of the hedge contract. Accordingly, we record all derivative instruments as either assets or liabilities in the consolidated balance sheets at their respective fair values. We record the change in the fair value of a derivative instrument designated as a cash flow hedge in other comprehensive income to the extent the derivative is effective and recognize the change in the consolidated statements of income when the hedged item affects earnings.

We were party to an interest rate swap agreement with a notional amount of \$10,000 that matured in October 2011 and was designated as a cash flow hedge. This swap effectively exchanged the variable rate of 30-day LIBOR to a fixed interest rate of 5.07%. During 2011, 2010 and 2009, the hedging relationship was determined to be highly effective in achieving offsetting changes in cash flows.

We were party to an interest rate swap agreement with a notional amount of \$10,000 that matured in October 2009 and was designated as a cash flow hedge. This swap effectively exchanged the variable rate of 30-day LIBOR to a fixed interest rate of 5.04%. During 2009, the hedging relationship was determined to be highly effective in achieving offsetting changes in cash flows.

The negative fair value of the derivative financial instrument was \$399 at December 31, 2010, and is included, net of accrued interest, in accrued expenses and other current liabilities in the consolidated balance sheet. See Note 12. At December 31, 2010, \$238, net of deferred tax benefits of \$146, was included in accumulated OCL associated with the cash flow hedge.

The net change in OCL during 2011, 2010 and 2009, reflected the reclassification of \$244, net of income tax benefit of \$155, \$301, net of income tax benefit of \$185 and \$527, net of income tax benefit of \$320, respectively, of unrealized losses from accumulated OCL to current period earnings (recorded in interest expense, net in the consolidated statements of income).

Off-Balance Sheet Financial Instruments

At December 31, 2011 and 2010, we were contingently liable under standby letters of credit aggregating \$3,006 and \$3,399, respectively, which are primarily used as collateral to cover any contingency related to additional risk assessments pertaining to our self-insurance programs. Additionally, at December 31, 2011, we were contingently liable under various standby letters of credit and performance bonds aggregating approximately \$5,400 that are used as collateral to cover any contingencies related to our nonperformance to certain customers. We do not expect any material losses to result from the issuance of the standby letters of credit or performance bonds because our obligations under the self-insurance programs and to certain customers will be met in the ordinary course of business. Accordingly, the estimated fair value of these instruments is zero.

Concentrations of Credit Risk

Financial instruments which potentially subject us to concentrations of credit risk consist principally of cash investments and accounts receivable. Temporary cash investments are placed with high credit quality financial institutions and we limit the amount of credit exposure to any one financial institution or investment. Concentrations of credit risk with respect to accounts receivable are limited due to the large number of customers comprising the customer base and their dispersion across many different geographical regions.

12. FAIR VALUE MEASUREMENTS

The following tables present our assets and liabilities that are measured at fair value on a recurring basis and the levels of inputs used to measure fair value:

Description	Fair Value at December 31, 2011	Fair Value Measurements at December 31, 2011 Using		
		Level 1	Level 2	Level 3
Assets:				
Available-for-sale securities	\$ 163	\$ 163	—	—
Liabilities:				
Derivative financial instrument	\$ 399	—	\$ 399	—

Description	Fair Value at December 31, 2010	Fair Value Measurements at December 31, 2010 Using		
		Level 1	Level 2	Level 3
Assets:				
Available-for-sale securities	\$ 157	\$ 157	—	—
Liabilities:				
Derivative financial instrument	\$ 399	—	\$ 399	—

The following is a description of the valuation techniques used for these assets and liabilities, as well as the level of input used to measure fair value:

Available-for-sale securities – the investments are exchange-traded equity securities. Fair values for these investments are based on quoted prices in active markets and are therefore classified within Level 1 of the fair value hierarchy. The fair value of available-for-sale securities is included in other assets in our consolidated balance sheets.

Derivative financial instrument – the derivative is a pay-variable, receive fixed interest rate swap based on 30-day LIBOR. Fair value is based on model-derived valuations using the respective LIBOR rate, which is observed at quoted intervals for the full term of the swap and incorporates adjustments to appropriately reflect our nonperformance risk and the counterparty’s nonperformance risk. Therefore, the derivative is classified within Level 2 of the fair value hierarchy. The fair value of the derivative financial instrument is included, net of accrued interest, in accrued expenses and other current liabilities in our consolidated balance sheet. See Note 11, “Derivative Financial Instrument.”

13. COMMITMENTS AND CONTINGENCIES

Litigation, Claims and Assessments

We are involved in litigation incidental to the operation of our business. We vigorously defend all matters in which we or our subsidiaries are named defendants and, for insurable losses, maintain significant levels of insurance to protect against adverse judgments, claims or assessments that may affect us. Although the adequacy of existing insurance coverage and the outcome of any legal proceedings cannot be predicted with certainty, based on the current information available, we do not believe the ultimate liability associated with any known claims or litigation will have a material adverse impact to our financial condition or results of operations.

Self-Insurance

Self-insurance reserves are maintained relative to company-wide casualty insurance and health benefit programs. The level of exposure from catastrophic events is limited by the purchase of stop-loss and aggregate liability reinsurance coverage. When estimating the self-insurance liabilities and related reserves, management considers a number of factors, which include historical claims experience, demographic factors, severity factors and valuations provided by independent third-party actuaries. Management reviews its assumptions with its independent third-party actuaries to evaluate whether the self-insurance reserves are adequate. If actual claims or adverse development of loss reserves occur and exceed these estimates, additional reserves may be required. The estimation process contains uncertainty since management must use judgment to estimate the ultimate cost that will be incurred to settle reported claims and unreported claims for incidents incurred but not reported as of the balance sheet date. Reserves in the amounts of \$4,631 and \$7,295 at December 31, 2011 and 2010, respectively, were established related to such insurance programs and are included in accrued expenses and other current liabilities in our consolidated balance sheets.

Variable Interest Entities

As of December 31, 2011, in conjunction with our casualty insurance programs, limited equity interests are held in a captive insurance entity. The programs permit us to self-insure a portion of losses, to gain access to a wide array of safety-related services, to pool insurance risks and resources in order to obtain more competitive pricing for administration and reinsurance and to limit risk of loss in any particular year. The entities meet the definition of VIEs; however, we do not meet the requirements to include these entities in the consolidated financial statements. The maximum exposure to loss related to our involvement with these entities is limited to approximately \$6,100. See "Self-Insurance" above for further information on commitments associated with the insurance programs and Note 11, "Off-Balance Sheet Financial Instruments," for further information on standby letters of credit. As of December 31, 2011, there are no other entities that met the definition of a VIE.

Operating Leases

We are obligated under various non-cancelable operating lease agreements for real property, equipment, vehicles and a corporate aircraft used in our operations with varying terms through 2021. We are committed to pay a portion of the actual operating expenses under certain of these lease agreements. These operating expenses are not included in the table below. Some of these arrangements have free or escalating rent payment provisions. We recognize rent expense under such arrangements on a straight-line basis over the lease term.

At December 31, 2011, future minimum payments under non-cancelable operating leases over each of the next five years and thereafter were as follows:

2012	\$ 58,546
2013	48,229
2014	39,078
2015	31,098
2016	21,763
Thereafter	17,816
Total minimum payments	<u>\$216,530</u>

Rental expense for the years ended December 31, 2011, 2010 and 2009 was \$70,933, \$61,835 and \$55,502, respectively.

14. RELATED PARTY TRANSACTIONS

Purchases from Carrier and its affiliates comprised 54%, 52% and 41% of all purchases made during 2011, 2010 and 2009, respectively. At December 31, 2011 and 2010, approximately \$41,000 and \$93,000, respectively, was payable to Carrier and its affiliates, net of receivables. Our joint ventures with Carrier also sell HVAC products to Carrier and its affiliates. Revenues in our consolidated statements of income for 2011, 2010 and 2009 include \$23,710, \$22,142 and \$11,879, respectively, of sales to Carrier and its affiliates. We believe these transactions are conducted at arm's-length in the ordinary course of business.

Carrier Enterprise II entered into Transactional Services Agreements ("TSAs") with Carrier, pursuant to which Carrier performs certain business processes on their behalf, including processes involving the use of certain information technologies. The services provided by Carrier pursuant to the TSAs terminate on various dates through April 30, 2012 but may be advanced or extended as agreed upon by the parties. The fees related to these TSAs were \$1,139 for the year ended December 31, 2011 and are included in selling, general and administrative expenses in our consolidated statements of income. At December 31, 2011, \$941 related to these TSAs was payable to Carrier and was included in accrued expenses and other current liabilities in our consolidated balance sheet.

The services previously provided by Carrier pursuant to TSAs with Carrier Enterprise I terminated on various dates throughout 2010. The fees related to these TSAs were \$2,177 and \$10,808, and are included in selling, general and administrative expenses in our consolidated statements of income for 2010 and 2009, respectively. No amount related to these TSAs was payable to Carrier at December 31, 2010.

A member of our Board of Directors is the Executive Chairman of Greenberg Traurig, P.A., which serves as our principal outside counsel and receives customary fees for legal services. During 2011, 2010 and 2009, this firm was paid \$59, \$63 and \$49, respectively, for services performed.

15. SUPPLEMENTAL CASH FLOW INFORMATION

Supplemental cash flow information was as follows:

<u>Years Ended December 31,</u>	<u>2011</u>	<u>2010</u>	<u>2009</u>
Interest paid	\$ 1,854	\$ 1,348	\$ 1,436
Income taxes net of refunds	\$45,137	\$37,361	\$ 14,018
Net assets of locations contributed to Carrier Enterprise I and II	\$14,769	—	\$ 23,217
Non-cash capital contribution of inventory by noncontrolling interest	—	—	\$ 32,000
Common and Class B common stock issued for Carrier Enterprise I	—	—	\$151,056

- (1) Sales of residential central air conditioners, heating equipment and parts and supplies are seasonal. Demand related to the residential central air conditioning replacement market is typically highest in the second and third quarters and demand for heating equipment is usually highest in the fourth quarter. Demand related to the new construction sectors throughout most of the markets is fairly consistent during the year, except for dependence on housing completions and related weather and economic conditions.
- (2) Quarterly and year-to-date earnings per share are calculated on an individual basis; therefore, the sum of earnings per share amounts for the quarters may not equal earnings per share amounts for the year.
